1. Identification

Product identifier      Adcirca®
Other means of identification
   Item Code             ZD4467, TA4469, TA4468, ND1053, ND1054, ND1105, ND1106, TA4462, TA4463, TA4464, TA4465, VF0371, VF0372, VF0373, VF0378, ZD4125, TA4467, CT4465
   Synonyms              Zalutia * Adcirca * Cialis
Recommended use        Pharmaceutical
Recommended restrictions None known.
Manufacturer/Importer/Supplier/Distributor information

Manufacturer
   Company name      Eli Lilly and Company
   Address           Lilly Corporate Center
                     Indianapolis, IN 46285
   Telephone         Phone: +1-317-276-2000
   E-mail            lilly_msds@lilly.com
   Emergency phone number CHEMTREC: +1-800-424-9300

2. Hazard(s) identification

Physical hazards       Not classified.
Health hazards         Not classified.
OSHA defined hazards   Not classified.

Label elements
   Hazard symbol       None.
   Signal word         None.
   Hazard statement    The mixture does not meet the criteria for classification.

Precautionary statement
   Prevention          Not available.
   Response            Not available.
   Storage             Not available.
   Disposal            Not available.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information None.

3. Composition/information on ingredients

Composition comments Remaining components of this product are non-hazardous and/or are present at concentrations below reportable levels.
4. First-aid measures

**Inhalation**
Remove to fresh air. If breathing stops, provide artificial respiration. Get medical attention immediately.

**Skin contact**
Wash off immediately with plenty of water. Continue to rinse for at least 15 minutes. Immediately take off all contaminated clothing. Get medical attention if irritation develops and persists.

**Eye contact**
In case of eye contact, remove contact lens and rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical attention.

**Ingestion**
Immediately give large quantities of water to drink. Never give anything by mouth to a victim who is unconscious or is having convulsions. Call a physician immediately.

**Most important symptoms/effects, acute and delayed**
Headache. Flushing.

**Indication of immediate medical attention and special treatment needed**
PRE-EXISTING MEDICAL CONDITIONS WHICH MAY BE AGGRAVATED BY EXPOSURE:
Individuals on nitrate or alpha blocker therapy.

**General information**
Intact capsules or tablets are not considered hazardous under normal handling procedures. The recommendations in this section are intended for manufacturing or other situations where exposure to contents may occur.

5. Fire-fighting measures

**Suitable extinguishing media**
Carbon dioxide, dry chemical or water.

**Unsuitable extinguishing media**
None known.

**Specific hazards arising from the chemical**
The recommendations in this section are intended for manufacturing or other situations where exposure to contents may occur.

Hazardous decomposition products formed under fire conditions. If small particles are generated during further processing, handling, or by other means, may form combustible dust concentrations in air.

**Special protective equipment and precautions for firefighters**
Wear self-contained breathing apparatus and protective clothing.

6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures**
Wear suitable protective clothing, gloves and eye/face protection. See Section 8 of the SDS for Personal Protective Equipment.

**Methods and materials for containment and cleaning up**
The recommendations in this section are intended for manufacturing or other situations where exposure to contents may occur.

Do not sweep. Collect spill using a vacuum cleaner with a HEPA filter. Be aware of potential for dust explosion when using electrical equipment. If vacuum is not available, lightly mist/wet material and remove by mopping or wet wiping.

**Environmental precautions**
Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

**Precautions for safe handling**
Avoid contact with eyes, skin, and clothing. Wash hands thoroughly after handling. See Section 8 of the SDS for Personal Protective Equipment.

**Conditions for safe storage, including any incompatibilities**
Storage temperature: between 15 C and 30 C.

8. Exposure controls/personal protection

**Occupational exposure limits**

</tbody>
</table>

**Biological limit values**
No biological exposure limits noted for the ingredient(s).
Intact capsules or tablets are not considered hazardous under normal handling procedures and protective equipment is not required. The recommendations in this section are intended for manufacturing or other situations where exposure to contents may occur.

Open handling is not recommended. Use appropriate control measures such as fume hood, ventilated enclosure, isolator (i.e. glove bag/glove box) and/or closed transfers to maintain airborne levels below occupational exposure level (OEL).

**Individual protection measures, such as personal protective equipment**

**Eye/face protection**
Safety glasses with side shields recommended. If splash potential or dusty operations, wear goggles/face shield.

**Skin protection**
Chemical resistant gloves.

**Hand protection**
Chemical resistant gloves and impermeable body covering to minimize skin contact.

**Respiratory protection**
If the applicable occupational exposure level (OEL) is anticipated to be exceeded, wear an approved respirator with sufficient protection factor to control exposure below the OEL.

**Thermal hazards**
Not available.

**General hygiene considerations**
Engineering controls should be used as the primary means to control workplace exposures. Follow good workplace hygiene practices such as washing hands after handling this material.

**9. Physical and chemical properties**

**Appearance**

- **Physical state**
  Solid.
- **Form**
  Tablet.
- **Color**
  Yellow to Orange.
- **Odor**
  Odorless
- **Odor threshold**
  Not available.
- **pH**
  Not available.
- **Melting point/freezing point**
  Not available.
- **Initial boiling point and boiling range**
  Not available.
- **Flash point**
  Not applicable.
- **Evaporation rate**
  Not available.
- **Flammability (solid, gas)**
  No test data available.

**Upper/lower flammability or explosive limits**

- **Flammability limit - lower (%)**
  Not available.
- **Flammability limit - upper (%)**
  Not available.
- **Explosive limit - lower (%)**
  Not available.
- **Explosive limit - upper (%)**
  Not available.

**Vapor pressure**
Not applicable.

**Vapor density**
Not applicable.

**Relative density**
Not available.

**Solubility(ies)**

- **Solubility (water)**
  Not available.

**Partition coefficient (n-octanol/water)**
Not available.

**Auto-ignition temperature**
Not available.

**Decomposition temperature**
Not available.

**Viscosity**
Not available.

**Other information**

- **Explosive properties**
  Not explosive
- **Oxidizing properties**
  The substance or mixture is not classified as oxidizing.
10. Stability and reactivity
Reactivity
Not water reactive.
Chemical stability
Material is stable under normal conditions.
Possibility of hazardous reactions
Hazardous polymerization does not occur.
Conditions to avoid
None known.
Incompatible materials
Strong oxidizing substances.
Hazardous decomposition products
Hazardous decomposition products formed under fire conditions.

11. Toxicological information
Information on toxicological effects
Acute toxicity

Skin corrosion/irritation
Rabbit: Slight irritation.
Based on available data, the classification criteria are not met.

Serious eye damage/eye irritation
Rabbit: Slightly irritating.
Based on available data, the classification criteria are not met.

Respiratory or skin sensitization

Respiratory sensitization
Due to lack of data the classification is not possible.

Skin sensitization
Due to lack of data the classification is not possible.

Germ cell mutagenicity
Result in genetic toxicity assays (in vitro and in vivo): Negative
Based on available data, the classification criteria are not met.

Carcinogenicity
Not listed by ACGIH, IARC, NIOSH, NTP OR OSHA.
Based on available data, the classification criteria are not met.

IARC Monographs. Overall Evaluation of Carcinogenicity
Not available.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)
Not listed.

US. National Toxicology Program (NTP) Report on Carcinogens
Not available.

Reproductive toxicity
There was no impairment of fertility in male and female rats. In beagle dogs given tadalafil daily for 6 to 12 months at doses of 25 mg/kg/day and above, there were alterations to the seminiferous tubular epithelium that resulted in a decrease in spermatogenesis in some dogs. These findings were not observed in rats or mice. Furthermore, in men taking tadalafil 10 or 20 mg/daily for 6 months, there were no clinically relevant effects on sperm concentration, count, motility, or morphology. Additionally, there were no significant effects of serum levels of testosterone, luteinizing hormone, or follicle stimulating hormone. There was no evidence of teratogenicity, embryotoxicity or fetotoxicity in rats or mice that received up to 1000 mg/kg/day. In a rat pre- and postnatal development study, the observed no effect dose was 30 mg/kg/day. Based on available data, the classification criteria are not met.

Specific target organ toxicity - single exposure
Due to lack of data the classification is not possible.
Specific target organ toxicity - repeated exposure

Repeated oral doses of tadalafil for more than six months resulted in decreased testicular weight in dogs. The decreased testes weights (reported at doses of 25 mg/kg/day and above in the 12-month study) correlated with degeneration and atrophy of the seminiferous epithelium. Decreased sperm in the epididymes was also reported with aspermia in the most severely affected dogs. No effects on semen parameters reported in humans after six-months of daily dosing (10 or 20 mg/day). When administered orally for 5 or 28 days at 5 mg/kg/day, blood pressure was reduced in rats. No significant findings were reported in rats or mice administered up to 800 mg/kg by oral gavage for up to 3 months. Based on available data, the classification criteria are not met.

Aspiration hazard
Not applicable.

Further information
Based on animal studies with Tadalafil, chronic overexposure by ingestion may cause testicular tissue changes and decreased sperm production. However, two six-month human clinical studies reported no changes in sperm parameters. The most common adverse effects related to drug treatment were headache, lower back pain, and vasodilation (flushing), which can result in transient decreases in blood pressure.

12. Ecological information

Ecotoxicity
Harmful to aquatic life with long lasting effects.

13. Disposal considerations

Disposal instructions

Dispose in accordance with all applicable regulations.

14. Transport information

DOT

Not regulated as dangerous goods.

IATA

Not regulated as dangerous goods.

IMDG

Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not available.

15. Regulatory information

US federal regulations

This product is not known to be a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200. One or more components are not listed on TSCA.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

SARA 304 Emergency release notification

Not regulated.
OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)
Not listed.

Superfund Amendments and Reauthorization Act of 1986 (SARA)
Hazard categories
Immediate Hazard - No
Delayed Hazard - No
Fire Hazard - No
Pressure Hazard - No
Reactivity Hazard - No

SARA 313 (TRI reporting)
Not regulated.

Other federal regulations
Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List
Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)
Not regulated.

Safe Drinking Water Act (SDWA)
Not regulated.

US state regulations
California Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): This material is not known to contain any chemicals currently listed as carcinogens or reproductive toxins.

US. California Controlled Substances. CA Department of Justice (California Health and Safety Code Section 11100)
Not listed.

US. Massachusetts RTK - Substance List
Not regulated.

US. New Jersey Worker and Community Right-to-Know Act
Not listed.

US. Pennsylvania Worker and Community Right-to-Know Law
Not listed.

US. Rhode Island RTK
Not regulated.

US. California Proposition 65
Not Listed.
