3. HAZARDS IDENTIFICATION

Extremely flammable. Harmful if swallowed. Repeated exposure may cause skin dryness or cracking. Vapours may cause drowsiness and dizziness.

4. FIRST AID MEASURES

GENERAL: IN ALL CASES OF DOUBT OR WHEN SYMPTOMS PERSIST, ALWAYS SEEK MEDICAL ATTENTION

INHALATION: Move affected person from exposure. If recovery not rapid or complete seek medical attention. If breathing stops, provide artificial respiration. Keep affected person warm and at rest.
**INGESTION:**
DO NOT INDUCE VOMITING. In case of spontaneous vomiting, be sure that vomit can freely drain because of danger of suffocation. Only when conscious, rinse mouth with plenty of water and give plenty of water to drink - (approx 500ml). Keep patient at rest and obtain medical attention.

**SKIN:**
Remove contaminated clothing. Wash affected area with plenty of soap and water. If symptoms occur or persist, obtain medical attention. Launder clothing before re-use.

**EYES:**
Rinse immediately with plenty of water for at least 5 minutes while lifting the eye lids. Seek medical attention. Continue to rinse.

---

**5. FIRE FIGHTING MEASURES**

**EXTINGUISHING MEDIA:**
Water spray, fog or mist, carbon dioxide (CO2), alcohol resistant foam, dry chemicals, sand, dolomite etc.

**SPECIAL FIRE FIGHTING PROCEDURES:**
Take measures to retain water used for extinguishing. Do not release contaminated water into drains, soil and surface water. Dispose of contaminated water and soil according to local regulations.

**UNUSUAL FIRE & EXPLOSION HAZARDS:**
May explode in a fire. Forms explosive mixtures with air. Vapour may travel considerable distance to source of ignition and flash back.

**HAZARDOUS COMBUSTION PRODUCTS:**
Burning may release oxides of carbon and other hazardous gases or vapours.

**PROTECTIVE MEASURES IN FIRE:**
Fire fighters should wear self-contained breathing apparatus.

---

**6. ACCIDENTAL RELEASE MEASURES**

**PERSONAL PRECAUTION IN SPILL:**
Wear appropriate protective clothing. Eliminate all sources of ignition. Avoid direct contact with skin, eyes and clothing. Do not breathe vapour or fumes.

**PRECAUTIONS TO PROTECT ENVIRONMENT:**
Prevent contamination of soil, drains and surface water.

**SPILL CLEANUP METHODS:**
Take-up spillage with absorbent, inert material and place in a suitable and closable labelled container for recovery or disposal. Wash the area clean with water and detergent, observing environmental requirements. Absorb small quantities with paper towels or other inert material and allow to evaporate in safe place (fume hood/cupboard). Ventilate well, if using engineering controls, ensure extraction equipment is to explosion/flameproof standard. Do not allow material to enter confined spaces such as sewers because of explosion risk.

---

**7. HANDLING AND STORAGE**

**USAGE PRECAUTIONS:**
HANDLING - Product should be used in accordance with good industrial principles for handling and storing of hazardous chemicals. Avoid vapour inhalation, skin and eye contact. Avoid vapour formation and ignition sources. Earth container and transfer equipment to eliminate accumulation of static charge.

**STORAGE PRECAUTIONS:**
Store in a cool, dry, well ventilated place, in securely closed original container. Store away from sources of heat or ignition.

**STORAGE CRITERIA:**
Flammable liquid storage.

---
