Safety Data Sheet

Section 1: Identification

Product identifier

Product Name • Retin-A Micro® (tretinoin gel) microsphere, 0.1%

Product Code • NDC 0187-5140-20 (0.1% tube); NDC 0187-5140-50 (0.1% pump); NDC 0187-5144-20 (0.04% tube); NDC 0187-5144-45 (0.04% tube - 45 g); NDC 0187-5144-50 (0.04% pump); NDC 0187-5148-50 (0.08% pump); NDC-187-5140-45 (0.1% tube- 45 g)

Product Description • Prescription pharmaceutical product. For treatment of acne.

Relevant identified uses of the substance or mixture and uses advised against

Recommended use • Finished Pharmaceutical Product

Restrictions on use • Refer to the product insert and/or prescribing information for restrictions on use and contraindications.

Details of the supplier of the safety data sheet

Manufacturer • Valeant Pharmaceuticals International, Inc.
   2150 St. Elzear West
   Laval H7L 4A8
   Canada
   valeant.com

Telephone (General) • 1-800-321-4576

Supplier • Valeant Pharmaceuticals North America, LLC

Bridgewater, NJ 08807
United States
valeant.com

Telephone (General) • 1-800-321-4576

Emergency telephone number

Supplier • 1-800-535-5053

Supplier • +1 352-323-3500

This safety data sheet is written to provide health, safety and environmental information for people handling this formulated product in the workplace. It is not intended to provide information relevant to consumer use of the product.

Section 2: Hazard Identification

UN GHS

According to: UN Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

Classification of the substance or mixture

UN GHS • Skin Irritation 2
      Eye Irritation 2A
      Reproductive Toxicity 2

Label elements

UN GHS

Preparation Date: 21/September/2015
Revision Date: 21/September/2015
**WARNING**

**Hazard statements**
- Causes skin irritation
- Causes serious eye irritation
- Suspected of damaging fertility or the unborn child.

**Precautionary statements**

**Prevention**
- Do not handle until all safety precautions have been read and understood.
- Wash thoroughly after handling.
- Wear protective gloves/protective clothing/eye protection/face protection.

**Response**
- IF exposed or concerned: Get medical advice/attention.
- IF ON SKIN: Wash with plenty of soap and water.
- IF skin irritation occurs: Get medical advice/attention.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- IF eye irritation persists: Get medical advice/attention.
- Take off contaminated clothing and wash before reuse.

**Storage/Disposal**
- Keep tightly closed. Store at controlled room temperature 20-25°C/68-77°F (excursions permitted to 15-30°C/59-86°F), to maintain product integrity. Use before date marked on carton and/or container.
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

**Other hazards**
- UN GHS: No data available

---

**Section 3 - Composition/Information on Ingredients**

### Substances

- Material does not meet the criteria of a substance according to United Nations Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

### Mixtures

### Section 4: First-Aid Measures

**Description of first aid measures**

- **Inhalation**: Normal use of this product does not pose an inhalation hazard. However, should respiratory tract irritation develop, discontinue use and remove to fresh air. Get medical attention if irritation or other symptoms develop or persist.

- **Skin**: For accidental and non-therapeutic exposures, immediately flush skin with large amounts of water. Remove contaminated clothing. If irritation (redness, rash, blistering) develops, get medical attention. If skin irritation occurs: Get medical advice/attention. Wash clothing separately before reuse.

- **Eye**: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

- **Ingestion**: If swallowed, wash out mouth with water provided person is conscious. Seek medical attention.

**Most important symptoms and effects, both acute and delayed**

- No data available

**Indication of any immediate medical attention and special treatment needed**

**Other information**

- Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Additional details are available on the product package insert or the Physicians Desk Reference.

### Section 5: Fire-Fighting Measures

**Extinguishing media**

- **Suitable Extinguishing Media**: SMALL FIRES: Dry chemical, CO2, water spray or regular foam. LARGE FIRE: Water spray, fog or regular foam.

- **Unsuitable Extinguishing Media**: No data available

- **Firefighting Procedures**: As in any fire, wear self-contained breathing apparatus and full protective gear to prevent contact with skin and eyes.

**Special hazards arising from the substance or mixture**

- **Unusual Fire and Explosion Hazards**: None known - product is not flammable or combustible.

- **Hazardous Combustion Products**: No data available

**Advice for firefighters**

- Structural firefighters’ protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations where direct contact with the substance is
Section 6 - Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Personal Precautions

- Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Evacuate immediate area. Ventilate enclosed areas.

Emergency Procedures

- Keep unauthorized personnel away. For bulk material spills: Contain spilled product. For small spills, add suitable absorbent material. Scoop up and place in an appropriate liquid-tight container equipped with a tight cover for disposal. For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Place spilled material in an appropriate, liquid-tight container equipped with a tight cover for disposal. Ventilate closed spaces before entering.

Environmental precautions

- Prevent spilled material from entering storm sewers or drains, waterways, and contact with soil.

Methods and material for containment and cleaning up

Containment/Clean-up Measures

- Isolate hazard area. Prevent from entering drains and sewers. Cover with vermiculite or other suitable inert material, pick up and place in closed containers. Transport outdoors and hold for waste disposal. Ventilate area and wash spill site after material pickup is complete. Refer to Section 13 for appropriate disposal procedures.

Reference to other sections

- Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

Section 7 - Handling and Storage

Precautions for safe handling

Handling

- Use only in well ventilated areas (preferably in a chemical fume hood). Do not breathe dusts, vapors or mists. Do not get in eyes, on skin, or on clothing. Avoid prolonged or repeated exposure. Wash thoroughly after handling. Use good safety and industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Storage

- Keep tightly closed. Store at controlled room temperature 20-25ºC/68-77ºF (excursions permitted to 15-30ºC/59-86ºF), to maintain product integrity. Use before date marked on carton and/or container.

Section 8 - Exposure Controls/Personal Protection

Control parameters

Exposure Limits/Guidelines

- Refer to the occupational exposure limits / guidelines for the individual product components.

**Exposure Control Notations**

ACGIH

- Butylated hydroxytoluene (128-37-0): **Carcinogens**: (A4 - Not Classifiable as a Human Carcinogen)

**Exposure controls**

**Engineering Measures/Controls**

- NO SPECIAL CONTROLS ARE REQUIRED UNDER CONDITIONS OF INTENDED USE. Local exhaust ventilation should be provided when handling bulk product.

**Personal Protective Equipment**

**Pictograms**

- Respiratory
  - Where risk assessment shows that air-purifying respirators are appropriate, a NIOSH (US) or CEN (EU) -certified air-purifying respirator equipped with HEPA and organic vapor cartridges may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits, when adequate oxygen is present and as a backup to engineering controls. Use a positive pressure air-supplied respirator if there is any potential for an uncontrolled release or any other circumstances where air purifying respirators may not provide adequate protection.

- Eye/Face
  - Wear protective eyewear (goggles, face shield, or safety glasses) when handling bulk product before closed in final packaging. Not required during normal clinical use.

- Hands
  - Wear protective gloves.

- Skin/Body
  - Wear protective gloves/protective clothing/eye protection/face protection. Not required during normal clinical use.

**General Industrial Hygiene Considerations**

- Handle in accordance with good industrial hygiene and safety practice. Do not eat, drink or smoke during work. Avoid contact with skin, eyes or clothing. Wash thoroughly after handling.

**Environmental Exposure Controls**

- No special controls are required under conditions of intended use. In the event of a bulk spill, prevent spilled material from entering storm sewers or drains, waterways, and contact with the soil.

Potential Health Effects

Inhalation
- Acute (Immediate) • No data available
- Chronic (Delayed) • No data available

Skin
- Acute (Immediate) • Causes skin irritation. This medicine causes increased sensitivity to sunlight.
- Chronic (Delayed) • Repeated and prolonged exposure may cause sensitization. Refer to the product insert and/or product prescribing information for comprehensive information regarding adverse reactions and other important symptoms and effects.

Eye
- Acute (Immediate) • Causes serious eye irritation.
- Chronic (Delayed) • No data available

Ingestion
- Acute (Immediate) • Not expected to be an exposure route. However, may cause gastric and intestinal irritation if ingested.
- Chronic (Delayed) • No data available

Carcinogenic Effects
- Studies in hairless albino mice with a different formulation suggest that concurrent exposure to tretinoin may enhance the tumorigenic potential of carcinogenic does of UVB and UVA light from a solar simulator. Although the significance of these studies to humans is not clear, exposure to sunlight or artificial irradiation sources should be minimized.

Reproductive Effects
- Oral tretinoin has been shown to be teratogenic in rats, mice, rabbits, hamsters, and subhuman primates. Tretinoin was teratogenic in Wistar rats when given orally or topically in doses greater than 1 mg/kg/day (8 times the maximum human systemic dose normalized for total body surface area). However, variations in teratogenic doses among various strains of rats have been reported. Topical tretinoin in a different formulation has generated equivocal results in animal teratogenicity tests. There is evidence for teratogenicity of topical tretinoin in Wistar rats at doses greater than 1 mg/kg/day (approximately 8 times the clinical dose assuming 100% absorption and based on body surface area comparison). Topical tretinoin has been shown to be fetotoxic in rabbits when administered in doses 8 times the clinical dose based on body surface area comparison.

Section 12 - Ecological Information

Toxicity
- This material has not been tested for environmental effects.
Persistence and degradability

- No data available

Bioaccumulative potential

- No data available

Mobility in Soil

- No data available

Other adverse effects

Section 13 - Disposal Considerations

Waste treatment methods

Product waste

- Waste characterizations and compliance with applicable laws are the responsibility solely of the waste generator.

Packaging waste

- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
