

Version 3.3 Revision Date 2017-03-16

SECTION 1: Identification of the substance/mixture and of the company/undertaking

Product information

Product Name : Di-n-Butyl Sulfide

Material : 1120828, 1024580, 1024581, 1024582, 1024729, 1024583,

1036566, 1024584

Company : Chevron Phillips Chemical Company LP

Specialty Chemicals 10001 Six Pines Drive The Woodlands, TX 77380

Emergency telephone:

SECTION 2: Hazards identification

Classification of the substance or mixture

This product has been classified in accordance with the hazard communication standard 29 CFR 1910.1200; the SDS and labels contain all the information as required by the standard.

Classification

: Flammable liquids, Category 4 Skin irritation, Category 2 Eye irritation, Category 2A

Labeling

SDS Number:100000068610 1/11

Di-n-Butyl Sulfide

Version 3.3 Revision Date 2017-03-16

Symbol(s)

Signal Word : Warning

Hazard Statements : H227: Combustible liquid.

H315: Causes skin irritation.

H319: Causes serious eye irritation.

Precautionary Statements : Prevention:

P210 Keep away from heat/sparks/open flames/hot surfaces.

No smoking.

P264 Wash skin thoroughly after handling.

P280 Wear protective gloves/ eye protection/ face protection.

Response:

P302 + P352 IF ON SKIN: Wash with plenty of soap and

water.

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present

and easy to do. Continue rinsing.

P332 + P313 If skin irritation occurs: Get medical advice/

attention.

P337 + P313 If eye irritation persists: Get medical advice/

attention.

P362 Take off contaminated clothing and wash before reuse. P370 + P378 In case of fire: Use dry sand, dry chemical or

alcohol-resistant foam to extinguish.

Storage:

P403 + P235 Store in a well-ventilated place. Keep cool.

Disposal:

P501 Dispose of contents/ container to an approved waste

disposal plant.

Carcinogenicity:

IARC No ingredient of this product present at levels greater than or

equal to 0.1% is identified as probable, possible or confirmed

human carcinogen by IARC.

NTP No ingredient of this product present at levels greater than or

equal to 0.1% is identified as a known or anticipated carcinogen

by NTP.

SECTION 3: Composition/information on ingredients

Synonyms : Dinormal Butyl Sulfide

normal-Butyl Sulfide

5-Thianonane

DNBS

n-Butyl Sulfide 1,1-Thiobisbutane

Molecular formula : C8H18S

| Component | CAS-No. | Weight % |
|-----------------|----------|----------|
| n-Butyl Sulfide | 544-40-1 | 95 - 100 |

SDS Number:100000068610 2/11

Version 3.3 Revision Date 2017-03-16

SECTION 4: First aid measures

General advice : Move out of dangerous area. Show this material safety data

sheet to the doctor in attendance. Material may produce a serious, potentially fatal pneumonia if swallowed or vomited.

If inhaled : If unconscious, place in recovery position and seek medical

advice. If symptoms persist, call a physician.

In case of skin contact : If skin irritation persists, call a physician. If on skin, rinse well

with water. If on clothes, remove clothes.

In case of eye contact : Immediately flush eye(s) with plenty of water. Remove contact

lenses. Protect unharmed eye. Keep eye wide open while

rinsing. If eye irritation persists, consult a specialist.

If swallowed : Keep respiratory tract clear. Never give anything by mouth to

an unconscious person. If symptoms persist, call a physician.

Take victim immediately to hospital.

SECTION 5: Firefighting measures

Flash point : 77 °C (171 °F)

Method: Cleveland Open Cup

Autoignition temperature : 216 °C (421 °F)

Suitable extinguishing

media

Carbon dioxide (CO2).

Unsuitable extinguishing

media

: High volume water jet.

Specific hazards during fire

fighting

Do not allow run-off from fire fighting to enter drains or water

courses.

Special protective

equipment for fire-fighters

: Wear self-contained breathing apparatus for firefighting if

necessary.

Further information : Collect contaminated fire extinguishing water separately. This

must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case

of fire, cans should be stored separately in closed containments. Use a water spray to cool fully closed

containers.

Fire and explosion

protection

: Do not spray on an open flame or any other incandescent material. Keep away from open flames, hot surfaces and

sources of ignition.

Hazardous decomposition

products

: Carbon oxides. Sulfur oxides.

SDS Number:100000068610

3/11

Di-n-Butyl Sulfide

Version 3.3 Revision Date 2017-03-16

SECTION 6: Accidental release measures

Personal precautions : Use personal protective equipment. Ensure adequate

ventilation.

Environmental precautions : Prevent product from entering drains. Prevent further leakage

or spillage if safe to do so. If the product contaminates rivers

and lakes or drains inform respective authorities.

Methods for cleaning up : Contain spillage, and then collect with non-combustible

absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Keep in suitable,

closed containers for disposal.

SECTION 7: Handling and storage

Handling

Advice on safe handling : Avoid formation of aerosol. Do not breathe vapors/dust. Avoid

contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Provide sufficient air exchange and/or exhaust in work rooms. Dispose of rinse water in accordance

with local and national regulations.

Advice on protection against fire and explosion

Do not spray on an open flame or any other incandescent material. Keep away from open flames, hot surfaces and

sources of ignition.

Storage

Requirements for storage areas and containers

No smoking. Keep in a well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the

technological safety standards.

Prevent unauthorized access. No smoking. Keep in a well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.

SECTION 8: Exposure controls/personal protection

Hazardous components without workplace control parameters

Engineering measures

Adequate ventilation to control airborned concentrations below the exposure guidelines/limits. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

SDS Number:100000068610 4/11

Version 3.3 Revision Date 2017-03-16

Personal protective equipment

Respiratory protection : Wear a supplied-air NIOSH approved respirator unless

ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as:. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-

levels are not known, or other circumstances where airpurifying respirators may not provide adequate protection.

Hand protection : The suitability for a specific workplace should be discussed

with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Eye protection : Eye wash bottle with pure water. Tightly fitting safety goggles.

Skin and body protection : Choose body protection in relation to its type, to the

concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate:. Flame retardant protective clothing. Footwear protecting against chemicals.

Hygiene measures : When using do not eat or drink. When using do not smoke.

Wash hands before breaks and at the end of workday.

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

Appearance

Form : Liquid
Physical state : Liquid
Color : Clear
Odor : Repulsive

Safety data

Flash point : 77 °C (171 °F)

Method: Cleveland Open Cup

Lower explosion limit : 0.8 %(V)

Upper explosion limit : 6.8 %(V)

Oxidizing properties : No

Autoignition temperature : 216 °C (421 °F)

Molecular formula : C8H18S

SDS Number:100000068610 5/11

Di-n-Butyl Sulfide

Version 3.3 Revision Date 2017-03-16

Molecular weight : 146.32 g/mol

pH : No data available

Freezing point : -75 °C (-103 °F)

Boiling point/boiling range : 180 - 191 °C (356 - 376 °F)

Vapor pressure : 0.10 PSI

at 38 °C (100 °F)

Relative density : 0.84

at 15.6 °C (60.1 °F)

Density : 841.2 g/l

at 16 °C (60 °F)

Water solubility : Negligible

Viscosity, dynamic : 1.05 cP

at 20 °C (68 °F)

Relative vapor density : 5.07

(Air = 1.0)

Evaporation rate : 1

Percent volatile : > 99 %

SECTION 10: Stability and reactivity

Chemical stability : This material is considered stable under normal ambient and

anticipated storage and handling conditions of temperature

and pressure.

Possibility of hazardous reactions

Conditions to avoid : Heat, flames and sparks.

Materials to avoid : Avoid oxidizing agents.

Hazardous decomposition : Carbon ox

products

: Carbon oxides Sulfur oxides

Other data : No decomposition if stored and applied as directed.

SECTION 11: Toxicological information

Di-n-Butyl Sulfide

Acute oral toxicity : Acute toxicity estimate: 2,337 mg/kg

Method: Calculation method

SDS Number:100000068610 6/11

Di-n-Butyl Sulfide

Version 3.3 Revision Date 2017-03-16

Acute toxicity estimate: 2,337 mg/kg

Method: Calculation method

Acute inhalation toxicity

n-Butyl Sulfide : No data available

Acute dermal toxicity

n-Butyl Sulfide : LD50: > 5,000 mg/kg

Species: Rabbit

Di-n-Butyl Sulfide

Skin irritation : May cause skin irritation in susceptible persons.

Di-n-Butyl Sulfide

Eye irritation : May cause irreversible eye damage.

Di-n-Butyl Sulfide

Aspiration toxicity : May be harmful if swallowed and enters airways.

Di-n-Butyl Sulfide

Further information : Solvents may degrease the skin.

SECTION 12: Ecological information

Toxicity to fish

n-Butyl Sulfide : 3.5 mg/l

Exposure time: 96 h Species: Fish

Toxicity to daphnia and other aquatic invertebrates

n-Butyl Sulfide : 1.71 mg/l

Exposure time: 48 h Species: Daphnia

Method: QSAR modeled data

Biodegradability

n-Butyl Sulfide : This material is not expected to be readily biodegradable.

Ecotoxicology Assessment

Acute aquatic toxicity

n-Butyl Sulfide : Toxic to aquatic life.

Chronic aquatic toxicity

n-Butyl Sulfide : Toxic to aquatic life with long lasting effects.

Additional ecological : An environmental hazard cannot be excluded in the event of

SDS Number:100000068610 7/11

Di-n-Butyl Sulfide

Version 3.3 Revision Date 2017-03-16

information unprofessional handling or disposal., Toxic to aquatic life with

long lasting effects.

SECTION 13: Disposal considerations

The information in this SDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Product : The product should not be allowed to enter drains, water

courses or the soil. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed

waste management company.

Contaminated packaging : Empty remaining contents. Dispose of as unused product.

Do not re-use empty containers. Do not burn, or use a cutting

torch on, the empty drum.

SECTION 14: Transport information

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.
