Methyl Alcohol	67-56-1	200/250			100%
Fast Green <1%	2353-45-	9			<1.0

## Section 3. Hazards Identification

Emergency Overview	
Potential Health Effects	Tarifornia Gardin al accomo no mano a la alcono
Eye	Irritant. Continued exposure may cause eye lesions.
Skin	Methyl Alcohol is a deffating agent and may cause skin to become
	dry and cracked. Skin absorption can occur; symptoms may parallel
	inhalation exposure.
Ingestion	Toxic. Symptoms parallel inhalation. Can intoxicate and cause
	blindness. Usual fatal dose: 100-125 milliliters.
Inhalation	A slight irritant to the mucous membranes. Toxic effects exerted
	upon nervous system, particularly the optic nerve. Once absorbed
	into the body, it is very slowly eliminated. Symptoms of overexposure
	may include headache, drowsiness, nausea, vomiting, blurred vision,
	blindness, coma, and death. A person may get better but then worse
	up to 30 hours later.
Carcinogenicity	Not classified as a human carcinogen.
Teratology	
Reproduction	
Mutagenicity	

Product Name Hema-Diff™ Solution 1 Product Code 11985-x

Flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids  GRT MEDICAL ATTENTION IMMEDIATELY  Skin Flush skin with plenty of soap and water for at least 15 minutes and wash contaminated clothing before reuse.  GET MEDICAL ATTENTION IMMEDIATELY.  Inquesion Induce vomiting immediately as directed by medical personnel. Never give anything by mouth to an unconscious person.  GET MEDICAL ATTENTION IMMEDIATELY.  Inhelation Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.  GET MEDICAL ATTENTION IMMEDIATELY.  Notes to Physician Effects may be delayed. Ethanol may inhibit methanol metabolism.  All Other Means of Exposure  CONTACT FOISON CONTROL CENTER IMMEDIATELY. Be prepared to provide hazardous ingredient information from Section 2  Section 5. Fire Fighting Measures  Flammable Limits Lower 6.0 Upper 36  Autoignition Temperature 464C (874°F)  Hazardous Combustion Products  Entinguishing Media Use alcohol foam, dry chemical or carbon dioxide.  (Water may be ineffective.)  General Information In the event of the fire, wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full facepiece operated in the pressure demand or other positive pressure mode. Use water spray to blanket fire, cool fire exposed containers, and to flush non-ignited spills or vapors away from fire. Vapors can flow along surfaces to distant ignition source and flash back.  Section 6. Accidental Release Measures  Spillot.eaks Ventilate area of leak or spill. Remove all sources of ignition. Wear appropriate personal protective equipment as specified in section 8. Keep unnecessary and unprotected personnel from entering. Contain and place in chemical waste container.	Section 4. First Aid Mea	asures		
Occasionally lifting the upper and lower eyelids  GET MEDICAL ATTENTION IMMEDIATELY  Skin Flush skin with plenty of soap and water for at least 15 minutes and wash contaminated clothing before reuse.  GET MEDICAL ATTENTION IMMEDIATELY.  Ingestion Induce vomiting immediately as directed by medical personnel. Never give anything by mouth to an unconscious person.  GET MEDICAL ATTENTION IMMEDIATELY.  Inhalation Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.  GET MEDICAL ATTENTION IMMEDIATELY.  Notes to Physician Effects may be delayed. Ethanol may inhibit methanol metabolism.  All Other Means of Exposure CONTACT POISON CONTROL CENTER IMMEDIATELY. Be prepared to provide hazardous ingredient information from Section 2  Section 5. Fire Fighting Measures  Flammable Properties Flash Point 54 F Method  Flammable Limits Lower 6.0 Upper 36  Autoignition Temperature 464C (874°F)  Hazardous Combuston Products  Extinguishing Media Use alcohol foam, dry chemical or carbon dioxide. (Water may be ineffective.)  General Information In the event of the fire, wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full facepiece operated in the pressure demand or other positive pressure mode. Use water spray to blanket fire, cool fire exposed containers, and to flush non-ignited spills or vapors away from fire. Vapors can flow along surfaces to distant ignition source and flash back.  Section 6. Accidental Release Measures  Splits/Leaks Ventilate area of leak or spill. Remove all sources of ignition. Wear appropriate personal protective equipment as specified in section 8. Keep unnecessary and unprotected personnel from entering. Contain and recover liquid when possible. Use non-	Eve	Flush eyes with plenty of water for at least 15 minutes.		
Skin Plush skin with plenty of soap and water for at least 15 minutes and wash contaminated clothing before reuse.  GET MEDICAL ATTENTION IMMEDIATELY.  Ingestion Induce vomiting immediately as directed by medical personnel. Never give anything by mouth to an unconscious person.  GET MEDICAL ATTENTION IMMEDIATELY.  Inhelation Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.  GET MEDICAL ATTENTION IMMEDIATELY.  Notes to Physician Effects may be delayed. Product Name Hema-Diff™ Solution 1

Product Code 11985-x

#### Section 7. Handling and Storage

Handling/Storage Wash thoroughly after handling. Use with adequate ventilation.

Ground and bond containers when transferring material. Empty containers retain

product residue, (liquid and/or vapors), and can be dangerous. Keep container

tightly closed. Avoid contact with heat, sparks and flame. Do not get on skin or

in eyes. Do not ingest or inhale. Do not pressurize, cut weld, braze, solder,

drill, grind, or expose empty containers to heat, sparks or open flames.

Keep away from heat, sparks, and flame. Keep away from sources of ignition.

Store in a tightly closed container. Store in a cool, dry, well ventilated

area away from incompatible substances.

## Section 8. Exposure Controls, Personal Protection

Engineering Controls

Use adequate general or local exhaust ventilation to keep
airborne concentrations below the permissible exposure limits.

Respiratory Protection

Follow the OSHA respirator regulations found in 29CFR 1910.134
or European Standard EN 149. Always use a NIOSH or European Standard EN 149
approved respirator when necessary.

Skin Protection

Wear appropriate protective clothing to prevent skin exposure.

Eye Protection Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN 166.

## Permissible Exposure Levels (see also Section 2)

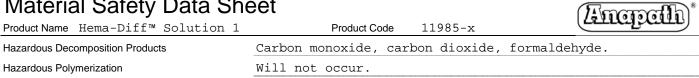

Component	CAS#	OSHA PEI	ACGIH TI V	Other Limits Recommended	Percent
Component	CAG#	OSHATEL	ACGITTEV	Recommended	reiteit
Methyl Alcohol	67-56-1	200/250			100%
Fast Green <1%	2353-45-	9			<1.0

#### Section 9. Physical and Chemical Properties

Boiling Point	147°F	Specific Gravity (H2O = 1)	0.08
Vapor Pressure (mm Hg)	97@20°C	Freezing Point	-144.4 F
Vapor Density (AIR = 1)	1.3	Evaporation rate L (BuAc=1)	5.9
Solubility in Water	······································	Physical State	······································
Misc	ible in water.	Liquid	
Appearance and Odor		Other	
Clear light green; punge	nt odor		

# Section 10. Stability and Reactivity

Chemical Stability	Stable under normal temperatures and pressures.
Conditions to Avoid	High temperatures, incompatible materials, ignition
sources.	

Hazardous Decomposition Products	Carbon monoxide, carbon dioxide, formaldehyde.		
Hazardous Polymerization	Will not occur.		
Incompatibilities with Other Materials	Strong oxidizing agents such as nitrates, perchlorates		
	or sulfuric acid. Will attack some forms of plastic,		
	rubber, and coatings. May react with metallic aluminum		
	and generate hydrogen gas.		

### **Section 11. Toxicological Information**
