

MATERIAL SAFETY DATA SHEET

Section 1. Product and Company Identification

Product Name: Body Drench Quick Tan Sunless Tanning Mist DATE: 4/12/2010
Formula: N/A REV. 00
Item#: 20653, 20655

Manufacturer: American International Industries
2220 Gaspar Ave
Los Angeles, CA 90040

Chem-Tel: (800) 255-3924

Section 2. Composition / Information on Ingredients

Hazardous Ingredients:

Component	CAS #	%	Exposure Limits ppm	
			ACGIH-TLV	OSHA-PEL
Dimethyl Ether	115-10-6	40.00%	None	None
Alcohol Denat.	N/A	20.40%	Established 1000ppm	Established 1000ppm

Section 3. Hazardous Identification

Potential Health Effects, Signs and Symptoms of Exposure:

Primary Route of Entry: Eyes, skin or inhalation

Eye: Liquid and vapor may cause irritation. Splashes may cause temporary pain and blurred vision.

Skin: May cause irritation, cracking, flaking and defatting of skin. Avoid contact with damaged skin. Direct contact with propellant may cause frostbite to occur.

Ingestion: Can cause depression of Central Nervous System, nausea, vomiting, intoxication, liver damage, and diarrhea.

Inhalation: May cause irritation to mucous membranes of the upper respiratory tract. Excess exposure may cause headache, drowsiness, and inability to concentrate. Inhalation of propellant may cause asphyxiation by oxygen displacement.

Section 4. First Aid Measures

First Aid for Eye: Irrigate with gently flowing water immediately and continuously for up to 15 minutes while holding eyelids open. Consult physician if irritation persists.

First Aid for Skin: Flush with plenty of water for at least 15 minutes. If frostbite occurs gently warm affected area. Consult physician if irritation persists. Launder contaminated clothing before reuse.

First Aid for Inhalation: If ill effects occur, remove to fresh air. If breathing has stopped, perform artificial respiration. Seek medical attention as needed.

MATERIAL SAFETY DATA SHEET

First Aid for Ingestion: DO NOT INDUCE VOMITING. Call physician or Poison Control Center immediately.

Note to Physician: No specific antidote. Treat symptomatically. Because inhalation of propellant may cause disturbance of cardiac rhythm, catecholamine drugs, such as epinephrine, should only be used with special caution in situations of emergency life support.

Section 5. Fire Fighting Measures

Flash Point (°F/°C): < 73°F / 22.7°C

Flammable Limit
(vol%): Not available

Auto-ignition Temp.
(vol%): Not available

Extinguisher Media: Use water, "Alcohol" foam, dry chemical or carbon dioxide

Fire & Explosion
Hazards: Keep containers cool and away from flames and sources of ignition. Do not crush or puncture containers. Closed containers exposed to excessive heat may rupture.

Special Fire Fighting
Procedures: Attempt to keep containers and/or product cool with water spray. Do NOT use direct water stream as this may spread fire to a larger area. Wear full bunker gear while controlling fire in confined areas.

Section 6. Accidental Release Measures

Spill or Release
Procedures: For small spills or leaks, contain spill with inert material; sweep up and place in a disposal container. For large spills, dike far ahead of spill for later disposal. Do not release into sewers or water-ways.

Section 7. Handling and Storage

Handling & Storing: Store in cool place. Keep away from heat, sparks and flame. Do not lay the container on its side. Use with proper ventilation. Avoid prolonged breathing vapor. Avoid contact with eyes and prolonged or repeated skin contact. Static electricity may accumulate and cause a fire hazard.

Section 8. Exposure Controls / Personal Protective Equipment

Respiratory Protections (Specific Type):

None required, when used with adequate ventilation.

Ventilation to be Used:

Use adequate ventilation.

Other Protective Clothing and Equipment:

MATERIAL SAFETY DATA SHEET

None required under normal conditions of use. When handling large quantities (e.g., > 1 gallon), wear protective eyeglasses, gloves, boot, and apron per OSHA regulations (29 CFR 1910.133).

Hygienic Work Practices:

Wash hand thoroughly after using this product and before eating, drinking, or smoking.

Section 9. Physical and Chemical Properties

Appearance @ 25°C: Thin Brown Liquid Spray

Evaporation Rate: Not determined

Odor @ 25°C: Vanilla

Vapor Pressure: 87 (for propellant)

pH: Not available

Vapor Density: 2.4 (for propellant)

Specific Gravity: Not available

Volatiles (by weight): 92%

Solids, %: Not available

Melting Point: Not applicable

Solubility in water: Soluble

Section 10. Stability and Reactivity

Stability: Stable

Hazardous Decomposition Products:

Excessive heat may cause Carbon Monoxide, Carbon Dioxide and unidentified organic compounds to be released.

Incompatibility (Materials to Avoid):

Strong oxidizing agents.

Hazardous Polymerization:

Will not occur

Conditions to Avoid: Heat, sparks, flame, strong acids and contact with strong oxidizing agents.

Section 11. Toxicological Information

This is a personal care product that is safe for use under normal and reasonable foreseeable use.

Skin Irritation: Not available

Eye Irritation: Not available

Sensitization: Not available

Acute Toxicity (LC50): Not available

MATERIAL SAFETY DATA SHEET

Acute Toxicity (LC50): Not available

Sub acute Toxicity: Not available

Chronic Toxicity: Not available

Section 12. Ecological Information

Biodegradation: Not available.

Bioaccumulation: Not available.

Aquatic Toxicology: Not available.

Other Information: Not available.

Section 13. Disposable Considerations

Disposal requirements are dependent on hazard classification and will vary by location and the type of disposal selected. Do not dispose the emptied container unlawfully. Observe all federal, state, and local laws.

Section 14. Transportation Information

<DOT Information>

Proper Shipping Name (49CFR 172.101): Aerosols

Hazard Class: 2

UN/NA: UN1950

Packing Group: III

Section 15. Regulatory Information

Additional regulatory information available upon request.

Section 16. Other Information

No additional information available.
