HALLIBURTON

SAFETY DATA SHEET BARACARB® 5

Revision Date: 22-Jun-2015

Revision Number: 25

1. Product and Company Identification

<u>Product Name</u> Product Trade Name:	BARACARB® 5
<u>Other Names</u> Synonyms: Product Code:	None HM003487
<u>Recommended Use</u> Recommended Use Uses Advised Against	Bridging Agent No information available
<u>Company Name, Address and Cor</u> Manufacturer/Supplier	<u>itact Details</u> Halliburton New Zealand 1 Paraite Rd, Bell Block, New Plymouth New Zealand Registration No.: 824207
E-Mail address:	fdunexchem@halliburton.com
Emergency Telephone Number	+64-6-7559274
New Zealand National Poisons Centre	0800 764 766 (24 hours)

2. Hazard(s) Identification

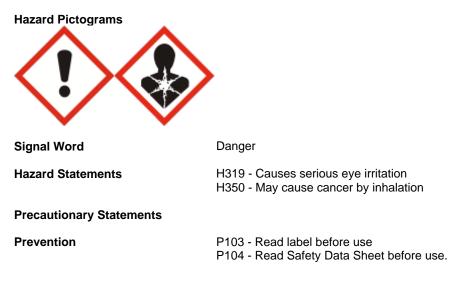

Statement of Hazardous Nature

Classified as hazardous according to criteria in the Hazardous Substances (Minimum Degrees of Hazard) Regulation 2001; Not Classified as dangerous good according to NZS 5433:2012, UN, IMDG or IATA

Classification

- 6.4A Irritating to the eye
- 6.7A Known or presumed human carcinogens
- 6.9A Toxic to human target organs or systems

Hazard and Precautionary Statements

	 P201 - Obtain special instructions before use P202 - Do not handle until all safety precautions have been read and understood P264 - Wash face, hands and any exposed skin thoroughly after handling P280 - Wear protective gloves/protective clothing/eye protection/face protection P281 - Use personal protective equipment as required
Response	P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes Remove contact lenses, if present and easy to do. Continue rinsing P337 + P313 - If eye irritation persists: Get medical advice/attention P308 + P313 - IF exposed or concerned: Get medical advice/attention
Storage	P405 - Store locked up
Disposal	P501 - Dispose of contents/container in accordance with local/regional/national/international regulations

Contains		
Substances	CAS Number	Substance HSNO Classification
Calcium carbonate	471-34-1	6.4A
Crystalline silica, quartz	14808-60-7	6.7A
		6.9A

2.3. Other Hazards

This substance is not considered to be persistent, bioaccumulating nor toxic (PBT). This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

3. Composition and Information on Ingredients

Substances	CAS Number	PERCENT (w/w)
Calcium carbonate	471-34-1	60 - 100%
Crystalline silica, quartz	14808-60-7	0.1 - 1%

4. First-Aid Measures

Requirements for First Aid or Medical Care

Inhalation	If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation
	develops or if breathing becomes difficult.
Eyes	In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.
Skin	Wash with soap and water. Get medical attention if irritation persists.
•	•
Ingestion	Under normal conditions, first aid procedures are not required.

Workplace Facilities Required

None

Relation to Health Effect

Most Important Symptoms/Effects

Breathing crystalline silica can cause lung disease, including silicosis and lung cancer. Crystalline silica has also been associated with scleroderma and kidney disease.

Medical Attention and Special Treatment

Notes to Physician

Treat symptomatically

5. Fire-fighting measures

<u>Type of Hazard</u> Flammability Hazard Non-flammable

5.1. Extinguishing media

Suitable Extinguishing Media

All standard fire fighting media Extinguishing media which must not be used for safety reasons None known.

HAZCHEM Code Hazchem Code:

None Allocated

Special Protective Equipment and Precautions for Fire Fighters

Special Protective Equipment for Fire-Fighters

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel. **Special Exposure Hazards**

Not applicable.

6. Spillage, Accidental Release Measures

6.1. Personal precautions, protective equipment and emergency procedures

Use appropriate protective equipment. Avoid creating and breathing dust.

See Section 8 for additional information

6.2. Environmental precautions

Prevent from entering sewers, waterways, or low areas.

6.3. Methods and material for containment and cleaning up

Collect using dustless method and hold for appropriate disposal. Consider possible toxic or fire hazards associated with contaminating substances and use appropriate methods for collection, storage and disposal.

6.4. Reference to other sections

See Section 8 and 13 for additional information.

7. Handling and storage

7.1. Precautions for Safe Handling

Handling Precautions

Avoid contact with eyes, skin, or clothing. Avoid creating or inhaling dust. This product contains quartz, cristobalite, and/or tridymite which may become airborne without a visible cloud. Avoid breathing dust. Avoid creating dusty conditions. Use only with adequate ventilation to keep exposure below recommended exposure limits. Wear a NIOSH certified, European Standard En 149, or equivalent respirator when using this product. Material is slippery when wet.

Handling Practices

Hygiene Measures

Handle in accordance with good industrial hygiene and safety practice.

Approved Handlers

If more than 10 kg (Class 6) is present, then an approved handler must be present when the substance is being handled and when not in use, the substance must be locked away.

7.2. Conditions for safe storage, including any incompatibilities

Store away from acids. Store in a cool, dry location. Use good housekeeping in storage and work areas to prevent accumulation of dust. Close container when not in use. Do not reuse empty container. Product has a shelf life of 60 months.

Store Site Requirements

No special controls required

Packaging

No special packaging required

8. Exposure Controls and Personal Protection

Workplace Exposure Standards

Exposure Limits			
Substances	CAS Number	New Zealand WES	ACGIH TLV-TWA
Calcium carbonate	471-34-1	TWA: 10 mg/m³	10 mg/m ³
Crystalline silica, quartz	14808-60-7	TWA: 0.2 mg/m ³	TWA: 0.025 mg/m ³

Engineering Controls

Engineering Controls

Use in a well ventilated area. Use approved industrial ventilation and local exhaust as required to maintain exposures below applicable exposure limits.

Personal Protective Equipment	t (PPE)
Respiratory Protection	Wear a NIOSH certified, European Standard EN 149 (FFP2/FFP3), AS/NZS 1715, or equivalent respirator when using this product.
Hand Protection Skin Protection	Normal work gloves. Wear clothing appropriate for the work environment. Dusty clothing should be laundered before reuse. Use precautionary measures to avoid creating dust when removing or laundering clothing.
Eye Protection Other Precautions Hygiene Measures	Wear safety glasses or goggles to protect against exposure. None known. Handle in accordance with good industrial hygiene and safety practice.

9. Physical and Chemical Properties

9.1. Information on basic physical and chemical properties

Physical State:	Solid Powder	<u>s</u> Color:	White
Odor:	Odorless		No information available
Property		Values	
Remarks/ - Metho	od_		
pH:		8-9	
Freezing Point/R	ange	No data available	
Melting Point/Ra	nge	No data available	
Boiling Point/Ra	nge	No data available	
Flash Point		No data available	
Evaporation rate	1	No data available	
Vapor Pressure		No data available	
Vapor Density		No data available	
Specific Gravity		2.7	
Water Solubility		Insoluble in water	
Solubility in othe		No data available	
	ent: n-octanol/water	No data available	
Autoignition Ten	_	No data available	
Decomposition 1	emperature	No data available	
Viscosity		No data available	
Explosive Prope		No information av	
Oxidizing Proper	ties	No information av	ailable

9.2. Other information VOC Content (%)

No data available

10. Stability and Reactivity

10.2. Chemical Stability Stable

10.4. Conditions to Avoid None anticipated

10.5. Incompatible Materials Strong acids.

10.6. Hazardous Decomposition Products

Carbon monoxide and carbon dioxide. Amorphous silica may transform at elevated temperatures to tridymite (870 C) or cristobalite (1470 C).

Hazardous Reactions Hazardous Polymerization:

Will Not Occur

11. Toxicological Information

Health Effect from Likely Routes of Exposure **Acute Toxicity**

Inhalation	Inhaled crystalline silica in the form of quartz or cristobalite from occupational sources is carcinogenic to humans (IARC, Group 1). There is sufficient evidence in experimental animals for the carcinogenicity of tridymite (IARC, Group 2A).
	Breathing silica dust may cause irritation of the nose, throat, and respiratory passages. Breathing silica dust may not cause noticeable injury or illness even though permanent lung damage may be occurring. Inhalation of dust may also have serious chronic health effects (See "Chronic Effects/Carcinogenicity" subsection below).
Eye Contact Skin Contact Ingestion	May cause mechanical irritation to eye. May cause mechanical skin irritation. None known.
Chronic Effects/Carcinogenicity	Silicosis: Excessive inhalation of respirable crystalline silica dust may cause a progressive, disabling, and sometimes-fatal lung disease called silicosis. Symptoms include cough, shortness of breath, wheezing, non-specific chest illness, and reduced pulmonary function. This disease is exacerbated by smoking. Individuals with silicosis are predisposed to develop tuberculosis.
	Cancer Status: The International Agency for Research on Cancer (IARC) has determined that crystalline silica inhaled in the form of quartz or cristobalite from occupational sources can cause lung cancer in humans (Group 1 - carcinogenic to humans) and has determined that there is sufficient evidence in experimental animals for the carcinogenicity of tridymite (Group 2A - possible carcinogen to humans). Refer to IARC Monograph 68, Silica, Some Silicates and Organic Fibres (June 1997) in conjunction with the use of these minerals. The National Toxicology Program classifies respirable crystalline silica as "Known to be a human carcinogen". Refer to the 9th Report on Carcinogens (2000). The American Conference of Governmental Industrial Hygienists (ACGIH) classifies crystalline silica, quartz, as a suspected human carcinogen (A2).
	There is some evidence that breathing respirable crystalline silica or the disease silicosis is associated with an increased incidence of significant disease endpoints such as scleroderma (an immune system disorder manifested by scarring of the lungs, skin, and other internal organs) and kidney disease.

Toxicity Data

Toxicology data for the components

Substances	CAS Number	LD50 Oral	LD50 Dermal	LC50 Inhalation
Calcium carbonate	471-34-1	6450 mg/kg (Rat) > 2000 mg/kg (Rat)	> 2000 mg/kg (Rat)	> 3 mg/L (Rat) 4h
Crystalline silica, quartz	14808-60-7	>15,000 mg/kg (Human)	No data available	No data available

ousoluniooo	CAS Number	Skin corrosion/irritation
Calcium carbonate	471-34-1	Non-irritating to the skin (Rabbit)
Crystalline silica, quartz	14808-60-7	Non-irritating to the skin

	CAS Number	Eye damage/irritation
Calcium carbonate	471-34-1	Non-irritating to the eye (Rabbit)
Crystalline silica, quartz	14808-60-7	Mechanical irritation of the eyes is possible.

	CAS Number	Skin Sensitization	
Calcium carbonate	471-34-1	id not cause sensitization on laboratory animals (mouse)	
Crystalline silica, quartz	14808-60-7	No information available.	

	CAS Number	Respiratory Sensitization
		No information available
Crystalline silica, quartz	14808-60-7	No information available

Substances CAS Mutagenic Effects Number	Number	0,	Substances	CAS Number	Mutagenic Effects
--	--------	----	------------	---------------	-------------------

Calcium carbonate	471-34-1	In vitro tests did not show mutagenic effects
Crystalline silica, quartz	14808-60-7	Not regarded as mutagenic.

Substances	CAS Number	Carcinogenic Effects
Calcium carbonate	471-34-1	No information available.
Crystalline silica, quartz		Contains crystalline silica which may cause silicosis, a delayed and progressive lung disease. The IARC and NTP have determined there is sufficient evidence in humans of the carcinogenicity of crystalline silica with repeated respiratory exposure. Based on available scientific evidence, this substance is a threshold carcinogen with a mode of action involving indirect genotoxicity secondary to lung injury.

	CAS Number	Reproductive toxicity
Calcium carbonate		Animal testing did not show any effects on fertility. Did not show teratogenic effects in animal experiments.
Crystalline silica, quartz	14808-60-7	No information available

	CAS Number	STOT - single exposure
Calcium carbonate	471-34-1	No significant toxicity observed in animal studies at concentration requiring classification.
Crystalline silica, quartz	14808-60-7	No significant toxicity observed in animal studies at concentration requiring classification.

Substances	CAS Number	STOT - repeated exposure
Calcium carbonate	471-34-1	No significant toxicity observed in animal studies at concentration requiring classification.
Crystalline silica, quartz	14808-60-7	Causes damage to organs through prolonged or repeated exposure if inhaled: (Lungs)

	CAS Number	Aspiration hazard
Calcium carbonate	471-34-1	Not applicable
Crystalline silica, quartz	14808-60-7	Not applicable

12. Ecological Information

12.1. Toxicity Ecotoxicity Effects

Product Ecotoxicity Data

No data available

Substance Ecotoxicity Data

Substances	CAS Number	Toxicity to Algae	Toxicity to Fish	Toxicity to Microorganisms	Toxicity to Invertebrates
Calcium carbonate	471-34-1	EC50(72h): > 14 mg/L (growth rate) (Desmodesmus subspicatus)	LC50(96h): > 100 mg/L (saturated solution) (Oncorhynchus mykiss)	EC50(3h): > 1000 mg/L (Activated sludge)	EC50(48h): > 100 mg/L (saturated solution) (Daphnia magna)
Crystalline silica, quartz	14808-60-7	No information available	LL0 (96h) 10,000 mg/L (Danio rerio) (similar substance)	No information available	LL50 (24h) > 10,000 mg/L (Daphnia magna) (similar substance)

12.2. Persistence and degradability

Substances	CAS Number	Persistence and Degradability
Calcium carbonate		The methods for determining biodegradability are not applicable to inorganic substances.
Crystalline silica, quartz	14808-60-7	No information available

12.3. Bioaccumulative potential

Substances	CAS Number	Log Pow
Calcium carbonate	471-34-1	No data available
Crystalline silica, quartz	14808-60-7	No data available

12.4. Mobility in soil

Substances	CAS Number	Mobility
Calcium carbonate	471-34-1	No information available
Crystalline silica, quartz	14808-60-7	No information available

Ecotoxicity Hazard Statements

None known

12.6. Other adverse effects Endocrine Disruptor Information

This product does not contain any known or suspected endocrine disruptors

13. Disposal Considerations

13.1. Waste treatment methods Disposal Method

Contaminated Packaging

Bury in a licensed landfill according to federal, state, and local regulations. Follow all applicable national or local regulations. Contaminated packaging may be disposed of by: rendering packaging incapable of containing any substance, or treating packaging to remove residual contents, or treating packaging to make sure the residual contents are no longer hazardous, or by disposing of packaging into commercial waste collection.

14. Transport Information

IMDG/IMO UN Number: UN Proper Shipping Name: Transport Hazard Class(es): Packing Group: Environmental Hazards:	Not restricted Not restricted Not applicable Not applicable Not applicable		
<u>NZ 5433.1999</u> UN Number: UN Proper Shipping Name: Transport Hazard Class(es): Packing Group:	Not restricted Not restricted Not applicable Not applicable		
IATA/ICAO UN Number: UN Proper Shipping Name: Transport Hazard Class(es): Packing Group:	Not restricted Not restricted Not applicable Not applicable		
<u>Special Precautions for User:</u> None <u>Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code:</u> Not applicable			
15. Regulatory Information			
New Zealand Inventory of Chemicals	All components listed on inventory or are exempt.		
HSNO Approval Number	HSR002512		
Group Name	Additives, Process Chemicals and Raw Materials (Toxic 6.7 HSR002512)		
HSNO Controls	Refer to the NZ EPA website for more information: http://www.epa.govt.nz		
Approved Handlers	If more than 10 kg (Class 6) is present, then an approved handler must be present when the substance is being handled and when not in use, the substance must be locked away.		
Poisons Schedule:	None Allocated		

16. Other information

The following sections have been revised since the last issue of this SDS Not applicable

Additional information
