Hazard Rating System:

2.3 Adverse Human Health Eyes: May cause eye irritation characterized by tearing, pain, redness, blurred vision, **Effects and Symptoms:** and/or swelling.

Oral: If more than several mouthfuls are swallowed, abdominal discomfort, nausea, and diarrhea may occur.

Inhalation: Breathing the vapor or mist at concentrations in air that exceed the ACGIH TLV, or in unusually high concentrations, as from exposure in poorly ventilated areas or confined spaces, may be irritating to the nose, throat and respiratory tract. Other symptoms of overexposure may include headache, nausea, dizziness and/or drowsiness.

Skin: Brief contact may cause slight irritation. Prolonged contact may cause more severe irritation and discomfort, seen as local redness and swelling.

Autoignition Pt: No data.

5.3 Fire Fighting Instructions: For fires involving this material, do not enter any enclosed or confined space without self-contained breathing apparatus to protect against the hazardous effects of combustion products or oxygen deficiency.

Section 6. Accidental Release Measures

6.3 Methods and Material For Containment and Cleaning Up: Stop the source of the leak or release and contain spill if possible. Ventilate area. Use respirator and protective clothing. Cover spill with a generous amount of inert absorbent. Use a stiff broom to mix thoroughly. Sweep up and place in a disposable container. Scrub contaminated area with detergent and water using a stiff broom. Pick up liquid with additional absorbent and place in a disposable container. Prevent contamination of groundwater or surface water.

Section 7. Handling and Storage

Section 11. Toxicological Information

11.1 Information on Toxicological Effects:

This material contains 2-ethylhexanoic acid. The primary human health effect reported is irritation to the eyes and skin. The major health effects observed in animals following repeated oral administration are on the liver and reproductive/developmental system in high doses. While normal use of this material should not result in any adverse effects, we strongly recommend that the precautions outlined in this SDS be followed to reduce skin contact and keep inhalation of mists to a minimum.
