

MATERIAL SAFETY DATA SHEET

1 PRODUCT AND COMPANY IDENTIFICATION

Product Name: Flexwrap 2300

Product No.: BH-060

Manufacturer Name:

Federal Mogul World Headquarters
26555 Northwestern Highway
Southfield, Michigan 48033

Emergency Telephone:

24hr EP (INFOTRAC): 1-800-535-5053
International: (001) 352-323-3500

Non-emergency Telephone:

1-248-354-9844

Intended Use: Industrial chemical

Contact Person:

MSDS Request (voicemail) 1-248-354-9844

2 HAZARDS IDENTIFICATION

Emergency Overview

Physical State: Solid

Color: Black

Odor: Odorless

Bentley-Harris Flexwrap 2300 is a light-weight, damage-resistant sleeving with a unique hook and loop selfclosing feature which eliminates spot-taping and does not require an open end for installation. The sleeving permits easy access for inspection, rework or replacement of components. Used to bundle wire harnesses, Flexwrap 2300 provides cut-through and abrasion protection. It is highly flexible and readily conforms to irregular shapes and contours. It does not trap heat or moisture.

Although several of the ingredients used to formulate this product may be hazardous in the raw state, the manufacturing process results in a solid infusible form, binding and otherwise, rendering the product inert. The ingredients may be released from the product by operations such as overheating, burning, machining, abrading, or riveting.

Potential Health Effects

Inhalation: The ingredients may be released from the product by operations such as overheating, burning, machining, abrading, or riveting. Dust may irritate the respiratory system.

Eye Contact: The ingredients may be released from the product by operations such as overheating, burning, machining, abrading, or riveting. Dust in the eyes will cause irritation.

Skin Contact: The ingredients may be released from the product by operations such as overheating, burning, machining, abrading, or riveting. Molten material will produce thermal burns.

Ingestion: Not relevant, due to the form of the product.

Chronic Health Effects: None known.

Potential Physical / Chemical Effects: This product is not flammable.

OSHA Regulatory Status: This product is not hazardous according to OSHA 29CFR 1910.1200.

Environment: No data available.

3	COMPOSITION / INFORMATION ON INGREDIENTS
----------	---

General Information: The ingredients may be released from the product by operations such as overheating, burning, machining, abrading, or riveting.

Chemical Name	CAS-No.	Concentration*
Polyester Monofilament	None	69%
Polyester Fill Yarn	None	< 1%
Hook and Loop fastener (Velcro)	None	30%

* All concentrations are percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

† This chemical is hazardous according to OSHA criteria.

4	FIRST AID MEASURES
----------	---------------------------

Inhalation: If symptomatic, move to fresh air. Get medical attention if any discomfort continues.

Eye Contact: Any material that contacts the eye should be washed out immediately with water. If easy to do, remove contact lenses. Get medical attention promptly if symptoms occur after washing.

Skin Contact: Wash skin with soap and water. Get medical attention promptly if symptoms occur after washing.

Ingestion: Rinse mouth thoroughly if dust is ingested. Get medical attention if any discomfort occurs.

5	FIRE-FIGHTING MEASURES
----------	-------------------------------

Extinguishing Media: Extinguish with foam, carbon dioxide, dry powder or water fog.

Unsuitable Extinguishing Media: Not applicable.

Special Fire Fighting Procedures: By heating and fire, irritating vapors/gases may be formed. Use fire-extinguishing media appropriate for surrounding materials. Self-contained breathing apparatus and full protective clothing should be worn when fighting chemical fires.

Unusual Fire & Explosion Hazards: None known.

Hazardous Combustion Products: Carbon Dioxide, Carbon Monoxide

6	ACCIDENTAL RELEASE MEASURES
----------	------------------------------------

Personal Precautions: Avoid generation and spreading of dust. Avoid contact with spilled material. Wear appropriate personal protective equipment. See Section 8 of the MSDS for Personal Protective Equipment.

Spill Cleanup Methods: Collect powder using special dust vacuum cleaner with particle filter or carefully sweep into closed container.

Environmental Precautions: Collect and dispose of spillage as indicated in section 13 of the MSDS. Avoid discharge into drains, water courses or onto the ground.

Notification Procedures: In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

7 HANDLING AND STORAGE

Handling: The ingredients may be released from the product by operations such as overheating, burning, machining, abrading, or riveting. Avoid dust formation. Provide adequate ventilation. Provide easy access to water supply and eye wash facilities.

Storage: Store in a cool, dry place. Store in tightly closed original container. Avoid conditions which create dust. Store away from incompatible materials.

8 EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limits: No exposure limits noted for ingredient(s) on ACGIH, OSHA and WEEL lists. However, ACGIH has limits for "nuisance dusts" which is TLV-TWA = 10 mg/m³.

Engineering Controls: Provide adequate ventilation. If dust or fumes are generated during use, use local exhaust in combination with general ventilation as necessary to remove fumes/dust from the workers' breathing zone and to ensure exposures do not exceed applicable limits.

Respiratory Protection: During dust-raising work or inhalation of hot/molten material: Use a NIOSH-approved respirator (See 29 CFR 1910.134, respiratory protection standard).

Eye Protection: Use tight fitting goggles if dust is generated.

Hand Protection: Gloves are recommended for prolonged use.

Skin Protection: Risk of contact: Thermally protective apron and long sleeves are recommended when volume of hot material is significant.

Hygiene Measures: Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Environmental Exposure Controls: Environmental manager must be informed of all major spillages.

9 PHYSICAL AND CHEMICAL PROPERTIES

Color: Black
Odor: Odorless
Odor Threshold: No data available.
Physical State: Solid
pH: Not applicable
Melting Point: 256°C (493°F)
Freezing Point: Not applicable.
Boiling Point: No data available.
Flash Point: No data available.
Evaporation Rate: No data available.
Flammability (Solid): No data available.
Flammability Limit - Upper (%): No data available.
Flammability Limit - Lower (%): No data available.
Vapor Pressure: No data available.
Vapor Density (Air=1): No data available.
Specific Gravity: 1.54
Solubility in Water: Insoluble
Solubility (Other): No data available.
Partition Coefficient (n-Octanol/water): No data available.
Autoignition Temperature: No data available.
Decomposition Temperature: No data available.
Viscosity: Not applicable.

10	STABILITY AND REACTIVITY
-----------	---------------------------------

Stability: Stable under normal temperature conditions and recommended use.

Conditions to Avoid: Excessive heat.

Incompatible Materials: Strong oxidizing agents.

Hazardous Decomposition Products: Thermal decomposition will start at temperatures greater than 300° C producing such by-products as carbon dioxide, carbon monoxide, esters, alcohol and trace amounts of nitrogen oxide and acetaldehyde.

Possibility of Hazardous Reactions: Will not occur.

11	TOXICOLOGICAL INFORMATION
-----------	----------------------------------

Specified Substance(s)

Acute Toxicity:

Test Results: No test data available for the ingredients.

Listed Carcinogens: None.

Product Information

Acute Toxicity:

Test Results

No test data available for the product.

Other Acute: The ingredients may be released from the product by operations such as overheating, burning, machining, abrading, or riveting. Dusts may irritate the respiratory tract, skin and eyes.

Chronic Toxicity: No data available.

12	ECOLOGICAL INFORMATION
-----------	-------------------------------

Ecotoxicity: No data available.

Mobility: The product is insoluble in water.

Persistence and Degradability: No data available.

Bioaccumulation Potential: No data available.

13	DISPOSAL CONSIDERATIONS
-----------	--------------------------------

General Information: Dispose of waste and residues in accordance with local authority requirements.

Disposal Methods: Disposal recommendations are based on material as supplied. Disposal must be in accordance with current applicable laws and regulations, and material characteristics at time of disposal.

14	TRANSPORT INFORMATION
-----------	------------------------------

DOT Not regulated.

TDG Not regulated.

IATA Not regulated.

IMDG Not regulated.

15	REGULATORY INFORMATION
-----------	-------------------------------

Canadian Controlled Products Regulations: This product has been classified according to the hazard criteria of the Canadian Controlled Products Regulations, Section 33, and the MSDS contains all required information.

WHMIS Classification: This is not a WHMIS controlled product.

Mexican Dangerous Statement: This product is not dangerous according to Mexican regulations.

Inventory Status: All ingredients are either listed or exempt from listing on TSCA.

US Regulations

CERCLA Hazardous Substance List (40 CFR 302.4): Not regulated.
