

Material Safety Data Sheet

May be used to comply with
OSHA'S Hazard Communication Standard,
29 CFR 1910.1200. Standard must be
consulted for specific requirements.

U.S. Department of Labor

Occupational Safety and Health Administration
(Non-Mandatory Form)
Form Approved
OMB No. 1218-0072

IDENTITY (As Used on Label and list)
Beautiful Feet Foot Dermicide

*Note: Blank spaces are not permitted. If any item is not applicable, or no
information is available, the space must be marked to indicate that.*

Section I

Manufacturer's Name California Mango, Inc	Emergency Telephone Number 714-375-2599
Address (Number, Street, City, State, and Zip Code) 17712 Crabb Lane	Telephone Number for Information 714-375-2599
Huntington Beach , California 92647	Date Prepared January 2000 - Revised
	Signature of Preparer (optional)

Section II— Hazardous Ingredients/Identity Information

Hazardous Components (Specific Chemical Identity: Common Name(s))	OSHA PEL	ACGIH TLV	Other Limits Recommended	% (optional)
The identity of the individual components of this mixture is proprietary information and is regarded to be a TRADE SECRET. In accordance with 29 CFR 1910.1200 we have to assume that the mixture presents the same health hazards as the individual components when they are present at greater than 10% concentration. Listed below are the health hazards for all the materials present of 10% concentration and that undiluted have health hazards associated with them. Please note that not all the components of the mixture have health hazards associated with them. In the event of a medical emergency the identity of all the components will be divulged to a qualified health professional. Repeated daily doses orally & dermally caused damage to nervous system. Toxic, prolonged skin contact may cause serious health effects. Repeated daily oral dosing of large amounts caused liver damage. Repeated daily oral dosing of large amounts caused kidney damage. Skin contact at full strength may cause mild irritation and also be an eye irritant. Repeated oral dosing increased ocular tension. Repeated daily application to skin caused reproductive effects. The following effects were concluded as a result of human testing and observation of one or more of the individual components. Liquid & Vapor may be mildly irritating to the throat and lungs. Breathing high concentration of vapor may cause anesthetic effects. May cause mild dermatitis after skin contact in sunlight. Repeated contact may cause mild allergic dermatitis.				
Contains: Ethanol Iodine Complex				

Section III—Physical/Chemical Characteristics

Boiling Point	101 Deg C	Specific Gravity (H2O = 1)	25/25 : 1.01
Vapor Pressure (mm Hg)	760mm Hg	Melting Point	N/A
Vapor Density (AIR - 1)	1	Evaporation Rate (Butyl Acetate - 1)	N/A
Solubility in Water Yes			
Appearance and Odor Yellow Liquid - Mild odor			

Section IV—Fire and Explosion Hazard Data

Flash Point (Method Used) N/A	Flammable Limits N/A	LEL	UEL
Extinguishing Media Water			
Special Fire Fighting Procedures Firefighters to cool fire-exposed containers, use blanketing effect. Use self contained breathing apparatus.			

Unusual Fire and Explosion Hazards
Dangerous fire hazard and moderate explosion hazard when exposed to heat and flame.

Section V—Reactivity Data

Stability	Unstable		Conditions to Avoid
	Stable	X	Presents no significant reactivity hazard, not pyrophoric nor reactive with water

Incompatibility (*Material to Avoid*)

Avoid contact with oxidizers

Hazardous Decomposition or Byproducts

Product will not burn.

Hazardous Polymerization	May Occur		Condition as to avoid
	Will Not Occur	X	Will not undergo spontaneous exothermic polymerization

Section VI- Health Hazard Data

Route(s) of Entry:	Inhalation?	Skin?	Ingestion?
--------------------	-------------	-------	------------

Health Hazards (Acute and Chronic)

The approximated vapor pressure of the mixture is sufficiently high enough to be a significant route of exposure.

Carcinogenicity:	NTP?	LARC Monographs?	OSHA Regulated?
------------------	------	------------------	-----------------

Signs and Symptoms of Exposure

Liquid and vapor may be irritating to skin and eyes. Vapor is irritating to the throat and lungs.

Medical Conditions

Generally Aggravated by Exposure Not Determined

Emergency and First Aid Procedures Eye contact: Irrigate with copious amount mild soap and water; if irritation persists obtain medical

advise. Ingestion: Immediate burning pain in mouth, throat, abdomen and severe swelling of the larynx, skeletal muscle paralysis

affecting the ability to breath, circulatory shock, convulsions; It may be fatal in large doses. Skin: Flush area with mild soap & water.

Section VII— Precautions for Safe Handling and Use

Steps to Be Taken in Case Material is Released or Spilled

Wear MSHA/NIOSH approved respirator. Dike and contain spill with inert materials (sand, earth etc) . Keep spills out of sewers and open bodies of water. Extremely toxic to fish and wildlife

Waste Disposal Method

Incineration or sanitary landfill in accordance with local, state, and federal regulations and consistent with good ecological practices.

Precautions to be taken in Handling and storing

None

Other Precautions

None

Section VIII— Control Measures

Respiratory protection (Specify Type)

Use NIOSH/MSHA approved respirator if TLV is exceeded.

Ventilation	Local Exhaust X	Special
General Mechanical	Mechanical (General)	Other

Protective Gloves	Volatile resistant if skin contact is anticipated	Eye Protection	Splash proof goggles if handling methods warrant them.
-------------------	---	----------------	--

Other Protective Clothing or Equipment

Wear NIOSH/MSHA approved respirator. Self-contained breathing apparatus preferred.

Work/Hygiene Practices

N/A

Disclaimer of Liability

The information on this MSDS was obtained from sources which we believe are reliable. HOWEVER, THE INFORMATION IS PROVIDED WITHOUT ANY REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED. REGARDING ITS ACCURACY OR CORRECTNESS.
