HALLIBURTON

MATERIAL SAFETY DATA SHEET

Product Trade Name: MICATEX® FINE Revision Date: 01-Feb-2012 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE **COMPANY/UNDERTAKING Statement of Hazardous Nature** Hazardous according to the criteria of NOHSC, Non-Dangerous Goods according to the criteria of ADG. Halliburton Australia Pty. Ltd. Manufacturer/Supplier 15 Marriott Road Jandakot WA 6164 Australia ACN Number: 009 000 775 Telephone Number: 61 (08) 9455 8300 Fax Number: 61 (08) 9455 5300 **Product Emergency Telephone** Australia: 08-64244950 Papua New Guinea: 05 1 281 575 5000 NewZealand: 06-7559274 Fire, Police & Ambulance - Emergency Telephone Australia: 000 Papua New Guinea: 000 New Zealand: 111 Identification of Substances or Preparation **Product Trade Name:** MICATEX® FINE Synonyms: None **Chemical Family:** Mineral UN Number: None **Dangerous Goods Class:** None Subsidiary Risk: None Hazchem Code: None Allocated **Poisons Schedule:** None Allocated Fluid Loss Additive **Application: Chemical Compliance Prepared By** Telephone: 1-580-251-4335 e-mail: fdunexchem@halliburton.com

2. COMPOSITION/INFORMATION ON INGREDIENTS

Substances	CAS Number	PERCENT	Australia NOHSC	New Zealand WES	ACGIH TLV-TWA
Mica	12001-26-2	60 - 100%	TWA: 2.5 mg/m ³	TWA: 3 mg/m ³	TWA: 3 mg/m ³
		MICATEX® Page 1 o			

2. COMPOSITION/INFO	ORMATION (ON INGREDI	ENTS		
Crystalline silica, quartz	14808-60-7	1 - 5%	TWA: 0.1 mg/m ³	TWA: 0.2 mg/m ³	TWA: 0.025 mg/m ³
Non-Hazardous Substance to Total of 100%					
3. HAZARDS IDENTIFI	CATION				
Hazard Overview		-	EALTH HAZARD		
	Breathin	g crystalline silio	C HEALTH HAZARD ca can cause lung dise a has also been associ		
	airborne conditior recomme 149, or e	without a visible is. Use only wit ended exposure quivalent respir	uartz, cristobalite, and/o e cloud. Avoid breathir h adequate ventilation e limits. Wear a NIOSH rator when using this pr this product, which has	ng dust. Avoid creato keep exposures I certified, Europeato oduct. Review the	ating dusty s below an Standard EN e Material Safety
Risk Phrases	None				
HSNO Classification	6.7A Kn systems	own or presume	ed human carcinogens	6.9A Toxic to hur	nan target organs or
4. FIRST AID MEASUR	ES				
Inhalation			area to fresh air. Get r becomes difficult.	nedical attention if	respiratory irritation
Skin	Wash wi	th soap and wa	ter. Get medical attenti	on if irritation persi	sts.

Eyes	In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.

Ingestion Under normal conditions, first aid procedures are not required.

Notes to Physician Treat symptomatically.

5. **FIRE FIGHTING MEASURES**

All standard fire fighting media Suitable Extinguishing Media

Extinguishing media which must None known. not be used for safety reasons

Special Exposure Hazards Not applicable.

Special Protective Equipment for Not applicable. **Fire-Fighters**

ACCIDENTAL RELEASE MEASURES 6.

Personal Precautionary Measures Use appropriate protective equipment. Avoid creating and breathing dust.

Environmental Precautionary None known. Measures

Collect using dustless method and hold for appropriate disposal. Consider possible toxic or fire hazards associated with contaminating substances and use appropriate methods for collection, storage and disposal.

7. HANDLING AND STORAGE

Handling Precautions	This product contains quartz, cristobalite, and/or tridymite which may become airborne without a visible cloud. Avoid breathing dust. Avoid creating dusty conditions. Use only with adequate ventilation to keep exposure below recommended exposure limits. Wear a NIOSH certified, European Standard En 149, or equivalent respirator when using this product. Material is slippery when wet.
Storage Information	Use good housekeeping in storage and work areas to prevent accumulation of dust. Close container when not in use. Do not reuse empty container.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls	Use approved industrial ventilation and local exhaust as required to maintain exposures below applicable exposure limits.
Respiratory Protection	Wear a NIOSH certified, European Standard EN 149 (FFP2/FFP3), or equivalent respirator when using this product.
Hand Protection	Normal work gloves.
Skin Protection	Wear clothing appropriate for the work environment. Dusty clothing should be laundered before reuse. Use precautionary measures to avoid creating dust when removing or laundering clothing.
Eye Protection	Wear safety glasses or goggles to protect against exposure.
Other Precautions	None known.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Color: Odor: pH: Specific Gravity @ 20 C (Water=1): Density @ 20 C (kg/l): Bulk Density @ 20 C (kg/m ³): Boiling Point/Range (C): Freezing Point/Range (C): Freezing Point/Range (C): Flash Point/Range (C): Flash Point/Range (C): Flash Point Method: Autoignition Temperature (C): Flammability Limits in Air - Lower (g/m ³): Flammability Limits in Air - Lower (%): Flammability Limits in Air - Upper (g/m ³): Flammability Limits in Air - Upper (%): Vapor Pressure @ 20 C (mmHg): Vapor Density (Air=1): Percent Volatiles: Evaporation Rate (Butyl Acetate=1):	Solid Silver Odorless 7-9 2.9 Not Determined Not Determined

VOCs (g/l): Viscosity, Dynamic @ 20 C (centipoise): Viscosity, Kinematic @ 20 C (centistokes): Partition Coefficient/n-Octanol/Water: Molecular Weight (g/mole): Decomposition Temperature (C): Not Determined Not Determined Not Determined Not Determined Not Determined Not Determined

10. STABILITY AND REACTIVITY

Stability Data:	Stable
Hazardous Polymerization:	Will Not Occur
Conditions to Avoid	None anticipated
Incompatibility (Materials to Avoid)	Hydrofluoric acid.
Hazardous Decomposition Products	Amorphous silica may transform at elevated temperatures to tridymite (870 C) or cristobalite (1470 C).
Additional Guidelines	Not Applicable

11. TOXICOLOGICAL INFORMATION

Principle Route of Exposure	Eye or skin contact, inhalation.
Sympotoms related to exposure Inhalation	Prolonged breathing of mica dust may produce pneumoconiosis. Inhaled crystalline silica in the form of quartz or cristobalite from occupational sources is carcinogenic to humans (IARC, Group 1). There is sufficient evidence in experimental animals for the carcinogenicity of tridymite (IARC, Group 2A). Breathing silica dust may cause irritation of the nose, throat, and respiratory passages. Breathing silica dust may not cause noticeable injury or illness even though permanent lung damage may be occurring. Inhalation of dust may also have serious chronic health effects (See "Chronic Effects/Carcinogenicity" subsection below).
Skin Contact	May cause mechanical skin irritation.
Eye Contact	May cause eye irritation.
Ingestion	None known
Aggravated Medical Conditions	Individuals with respiratory disease, including but not limited to asthma and

bronchitis, or subject to eye irritation, should not be exposed to quartz dust.

Chronic Effects/Carcinogenicity	Silicosis: Excessive inhalation of respirable crystalline silica dust may cause a progressive, disabling, and sometimes-fatal lung disease called silicosis. Symptoms include cough, shortness of breath, wheezing, non-specific chest illness, and reduced pulmonary function. This disease is exacerbated by smoking. Individuals with silicosis are predisposed to develop tuberculosis.
	Cancer Status: The International Agency for Research on Cancer (IARC) has determined that crystalline silica inhaled in the form of quartz or cristobalite from occupational sources can cause lung cancer in humans (Group 1 - carcinogenic to humans) and has determined that there is sufficient evidence in experimental animals for the carcinogenicity of tridymite (Group 2A - possible carcinogen to humans). Refer to <u>IARC Monograph 68</u> , Silica, Some Silicates and Organic Fibres (June 1997) in conjunction with the use of these minerals. The National Toxicology Program classifies respirable crystalline silica as "Known to be a human carcinogen". Refer to the 9th Report on Carcinogens (2000). The American Conference of Governmental Industrial Hygienists (ACGIH) classifies crystalline silica, quartz, as a suspected human carcinogen (A2).
	There is some evidence that breathing respirable crystalline silica or the disease silicosis is associated with an increased incidence of significant disease endpoints such as scleroderma (an immune system disorder manifested by scarring of the lungs, skin, and other internal organs) and kidney disease.
Other Information	For further information consult "Adverse Effects of Crystalline Silica Exposure" published by the American Thoracic Society Medical Section of the American Lung Association, American Journal of Respiratory and Critical Care Medicine, Volume 155, pages 761-768 (1997).
Toxicity Tests	
Oral Toxicity:	Not determined
Dermal Toxicity:	Not determined
Inhalation Toxicity:	Not determined
Primary Irritation Effect:	Not determined
Carcinogenicity	Refer to IARC Monograph 68, Silica, Some Silicates and Organic Fibres (June 1997).
Genotoxicity:	Not determined
Reproductive / Developmental Toxicity:	Not determined

12. ECOLOGICAL INFORMATION

Mobility (Water/Soil/Air)	Not determined
Persistence/Degradability	Not applicable

Bio-accumulation Not determined

Ecotoxicological Information

Acute Fish Toxicity: Not determined Acute Crustaceans Toxicity:EC50: > 10,000 mg/l (Daphnia magna)

> MICATEX® FINE Page 5 of 7

Acute Algae Toxicity:	Not determined
Chemical Fate Information	Not determined
Other Information	Not applicable

13. DISPOSAL CONSIDERATIONS

Disposal Method Bury in a licensed landfill according to federal, state, and local regulations.

Contaminated Packaging

Follow all applicable national or local regulations.

14. TRANSPORT INFORMATION

Land Transportation

ADR Not restricted

Air Transportation

ICAO/IATA Not restricted

Sea Transportation

IMDG

Not restricted

Other Transportation Information

Labels:

None

15. REGULATORY INFORMATION

Chemical Inventories	
Australian AICS Inventory New Zealand Inventory of Chemicals US TSCA Inventory EINECS Inventory	All components listed on inventory or are exempt. All components listed on inventory or are exempt. All components listed on inventory or are exempt. This product, and all its components, complies with EINECS
Classification	Crystalline silica is not classified as a carcinogen in EU Council Directives 67/548/EEC and 88/379/EEC.
Risk Phrases	None
Safety Phrases	S22 Do not breathe dust. S38 In case of insufficient ventilation wear suitable respiratory equipment.

16. OTHER INFORMATION

The following sections have been revised since the last issue of this SDS Not applicable
