Section 3: Harzards Identification

Emergency Overview

- * May cause allergic skin reaction
- * May cause eye irritation
- * Dust may cause irritation of the nose, throat, and lungs
- * This product may contain particulate not classified(Nuisance Dust)

Potential Health Effects, Signs and Symptoms of Exposure:

Primary Route of Entry: Eye, Skin, Ingestion, Inhalation
Eye: Higher concentration may cause eye irritation or damage.
Skin: Repeated or prolonged exposure may cause allergic skin rashes
Ingestion: Higher cc
Inhalation: Possible temporary discomfort due to inhalation of dust concentration above the permissible exposure limit.
 Dust may cause irritation of the nose, throat, and lungs.
Sub-Chronic Effects: OSHA classifies this material as Particulates. Skin, Eyes, Respiratory tract may be irritated by gross overexposure.

Section 4: First Aid Procedures

Eye & skin contact: Flush eyes with a large amount of water for at least 15 minutes, including under eyelids.
 Wash affected skin areas with soap and water. See a physician if irritation persists.
Inhalation: Move subject to fresh air. See a physician if discomfort persists
Ingestion: Rinse mouth out with water. Consult physician immediately if swallow large amount.

Section 5: Fire Fighting Measures

Flash Point (°F/°C)	Flammabale Limit (Vol %)	Auto-ignition Temperature (Vol %)
TAG Closed: 580 °F/304 °C	N/A	N/A

Extinguishing Media : (x) Water (x) CO2 (x) Dry Chemical () Alcohol foam () Other

Special Fire Fighting Procedures: Avoid extinguish methods that generate dust clouds. Water streams can disperse dust into air producing a fire hazard and possible explosion hazard. Fire-fighter should wear self-contained breathing apparatus.

Unusual Fire and Explosion Hazards: Polymer dust is combustible, explosive limits of the polymer particles suspended in the air are approximately those of coal dust.

Section 6: Accidental Release Measures

Cleanup of spills or accidental release of material: Sweep up carefully to prevent slipping hazard. Keep airborne particulates at a minimum when cleaning up spills.

Section 7: Handling & Storage

Handling: Use only with adequate ventilation. Wash face and hands thoroughly with soap and water after handling.
 Storage: Store in cool, dry place away from heat, sparks, flame and direct sunlight. Close container after each use to prevent moisture absorption and contamination.

Section 8: Exposure Controls & Personal Protective Equipment

General: Dust collectors are recommended for handling powder in bulk.
 Eye & Face protection: Use safety glasses and have eye flushing equipment immediately available.
 Skin Protection: Minimize contamination by following good industrial practice. Wear latex or other impermeable gloves.
 Respiratory Protection: Avoid breathing dust and mist. Use dust mask
