

# SAFETY DATA SHEET

M49043 - ANSI - EN

## INDSPEC Chemical Corporation

A subsidiary of Occidental Petroleum Corporation

---

### PENACOLITE® RESIN B-21-WS

SDS No.: M49043

SDS Revision Date: 25-Jan-2017

---

## SECTION 1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

---

<b>Company Identification:</b>	INDSPEC Chemical Corporation Subsidiary of Occidental Petroleum Corporation 5005 LBJ Freeway P.O. Box 809050 Dallas, Texas 75380-9050
<b>Manufacturing Address:</b>	INDSPEC Chemical Corporation Subsidiary of Occidental Petroleum Corporation 133 Main Street Petrolia, Pennsylvania 16050 USA Information: (+1) 412-826-3666
<b>24 Hour Emergency Telephone Number:</b>	1-800-733-3665 or 1-972-404-3228 (U.S.); CHEMTREC (U.S.): 1-800-424-9300; CHEMTREC Contract No: CCN16186; CANUTEC (Canada): 1-613-996-6666 MEDICAL EMERGENCIES: 1-800-456-7566
<b>To Request an SDS:</b>	MSDS@oxy.com or 1-972-404-3245
<b>Customer Service:</b>	1-800-221-6514 or 1-972-404-3700
<b>Product Identifier:</b>	<b>PENACOLITE® RESIN B-21-WS</b>
<b>Product No.</b>	80-16
<b>Synonyms:</b>	None
<b>Product Use:</b>	Rubber additive to improve adhesion
<b>Uses Advised Against:</b>	None identified

---

# PENACOLITE® RESIN B-21-WS

SDS No.: M49043

SDS Revision Date: 25-Jan-2017

Supersedes Date: 2015-12-May

**Chemical Family:** Resorcinol-Formaldehyde substituted Carbo Monocyclic Resin

**Note:** This product is a polymer, and is exempted from the provisions on registration of Title II of REACH (Article 2(9)).

## SECTION 2. HAZARDS IDENTIFICATION

**OSHA REGULATORY STATUS:** This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

\*\*\*\*\*

### EMERGENCY OVERVIEW:

**Color:** Dark brown  
**Physical State:** Solid  
**Appearance:** Pastille  
**Odor:** Slight phenolic odor

**Signal Word:** **WARNING**

**MAJOR HEALTH HAZARDS:** CAUSES SERIOUS EYE IRRITATION. CAUSES SKIN IRRITATION. MAY CAUSE AN ALLERGIC SKIN REACTION.

**PHYSICAL HAZARDS:** May form combustible dust concentrations in air.

**AQUATIC TOXICITY:** TOXIC TO AQUATIC LIFE.

**PRECAUTIONARY STATEMENTS:** Avoid breathing dust. Wash hands thoroughly after handling. Wear protective gloves, protective clothing, eye, and face protection. Contaminated work clothing should not be allowed out of the workplace. Wash skin and contaminated clothing thoroughly after handling. Avoid release to the environment.

**ADDITIONAL HAZARD INFORMATION:** Not for use or storage in or around home. Good hygiene and safety practices should be used when handling and working with this material. Good hygiene practices include but are not limited to: wearing suitable gloves and/or eye protection; washing hands and affected skin immediately after handling, before breaks, and at the end of the workday; regularly cleaning work area and clothing; etc.

\*\*\*\*\*

### GHS CLASSIFICATION:

<b>GHS: CONTACT HAZARD - SKIN:</b>	Category 2 - Causes skin irritation
<b>GHS: CONTACT HAZARD - EYE:</b>	Category 2A - Causes serious eye irritation
<b>GHS: SENSITIZATION HAZARD:</b>	Skin Sensitizer Category 1 - May cause an allergic skin reaction

**PENACOLITE® RESIN B-21-WS**

SDS No.: M49043

SDS Revision Date: 25-Jan-2017

Supersedes Date: 2015-12-May

<b>HAZARDOUS TO AQUATIC ENVIRONMENT - ACUTE HAZARD:</b>	Category 2 - Toxic to aquatic life
---------------------------------------------------------	------------------------------------

**Unknown Acute Inhalation Toxicity:**

There is no acute inhalation toxicity data available for this material. 100% of this product consists of ingredient(s) of unknown acute inhalation toxicity.

**GHS SYMBOL:** Exclamation mark**GHS SIGNAL WORD:** WARNING**GHS HAZARD STATEMENTS:****GHS - Health Hazard Statement(s)**

- Causes skin irritation
- May cause an allergic skin reaction
- Causes serious eye irritation

**GHS - Precautionary Statement(s) - Prevention**

- Avoid breathing dust
- Wash face, hands and any exposed skin thoroughly after handling
- Wear protective gloves, protective clothing, eye, and face protection
- Contaminated work clothing should not be allowed out of the workplace
- Avoid release to the environment

**GHS - Precautionary Statement(s) - Response**

- IF ON SKIN: Wash with plenty of water
- Take off contaminated clothing and wash it before reuse
- If skin irritation or rash occurs: Get medical advice/attention
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
- If eye irritation persists: Get medical advice/attention

**GHS - Precautionary Statement(s) - Storage**

- There are no Precautionary-Storage phrases assigned

**GHS - Precautionary Statement(s) - Disposal**

**PENACOLITE® RESIN B-21-WS**

SDS No.: M49043

SDS Revision Date: 25-Jan-2017

Supersedes Date: 2015-12-May

- Dispose of contents and container in accordance with applicable local, regional, national, and/or international regulations

**Hazards Not Otherwise Classified (HNOC)**

May form combustible dust concentrations in air (during processing)

**Physical Hazards Not Otherwise Classified**

- Combustible Dust: May form combustible dust concentrations in air

See Section 11: TOXICOLOGICAL INFORMATION

**SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS**

Synonyms: None

Component	Percent [%]	CAS Number
Formaldehyde, Polymer with 1,3-benzenediol and ethenylbenzene	90-95	135020-80-3
Resorcinol	5-10	108-46-3

**SECTION 4. FIRST AID MEASURES**

**SKIN CONTACT:** IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs, get medical advice/attention. Take off contaminated clothing and wash before reuse.

**EYE CONTACT:** IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

**Most Important Symptoms/Effects (Acute and Delayed):****Acute Symptoms/Effects:**

**Inhalation (Breathing):** Respiratory System Effects: Inhalation of this material may cause irritation, coughing.

**Skin:** Skin Irritation. Exposure of dust to skin may cause redness, mild irritation. Free resorcinol may penetrate the skin and cause systemic toxicity. This material contains less than 10% free resorcinol.

**Eye:** Eye Irritation. Eye exposure may cause irritation and burns to the eyelids, conjunctivitis, corneal edema, and iritis.

**Ingestion (Swallowing):** Gastrointestinal System Effects: Exposure by ingestion may cause irritation, nausea, and vomiting. May cause local tissue damage to esophagus and stomach such as burning, inflammation. Free resorcinol is well absorbed by the gastrointestinal (GI) tract, and this route of exposure can lead to systemic effects such as unconsciousness, respiratory failure, seizures, leukocytosis and severe metabolic acidosis, and methemoglobinemia. Alterations in liver and kidney functions have been reported in severe poisonings. This material contains less than 10% free resorcinol.

**Delayed Symptoms/Effects:**

## PENACOLITE® RESIN B-21-WS

SDS No.: M49043

SDS Revision Date: 25-Jan-2017

Supersedes Date: 2015-12-May

---

Skin: Repeated and prolonged skin contact may cause dermatitis and sensitization.

**Interaction with Other Chemicals Which Enhance Toxicity:** None known.

**Medical Conditions Aggravated by Exposure:** May aggravate preexisting conditions such as: eye disorders that decrease tear production or have reduced integrity of the eye; skin disorders that compromise the integrity of the skin; and respiratory conditions including asthma and other breathing disorders.

**Protection of First-Aiders:** Protect yourself by avoiding contact with this material. Avoid contact with skin and eyes. Use personal protective equipment. Refer to Section 8 for specific personal protective equipment recommendations. Do not ingest.

**Notes to Physician:** Treat symptomatically. There is no antidote. This material induces mild local irritation. For ingestion, consider evaluation of local mucosal irritation, and erosion.

---

## SECTION 5. FIRE-FIGHTING MEASURES

---

**Fire Hazard:** Negligible fire hazard.

**Explosive properties:** Dust (powder) may form explosive mixture in air. Closed containers may explode or rupture when exposed to extreme heat (fire).

**Extinguishing Media:** Use dry chemical, carbon dioxide, foam, or water spray

**Fire Fighting:** Wear complete fire service protective equipment, including full-face MSHA/NIOSH approved self-contained breathing apparatus. Use water to cool fire-exposed container/structure/protect personnel.

**Hazardous Combustion Products:**

Oxides of carbon (Carbon monoxide, Carbon dioxide)

**Sensitivity to Mechanical Impact:** Not sensitive.

**Sensitivity to Static Discharge:** Not sensitive.

**Lower Flammability Level (air):** Not applicable

**Upper Flammability Level (air):** Not applicable

**Flash point:** >220 °C (>428 °F)

**Auto-ignition Temperature:** Not applicable

**Physical Hazards Not Otherwise Classified**

- Combustible Dust: May form combustible dust concentrations in air

---

## PENACOLITE® RESIN B-21-WS

SDS No.: M49043

SDS Revision Date: 25-Jan-2017

Supersedes Date: 2015-12-May

---

### SECTION 6. ACCIDENTAL RELEASE MEASURES

---

#### Personal Precautions:

Keep unnecessary and unprotected personnel from entering the area. Stop leak if possible without personal risk. Stay upwind. Do not get in eyes. Do not breathe dust, fume, gas, mist, vapors, or spray. Avoid contact with skin and clothing. Wear appropriate personal protective equipment recommended in Section 8, Exposure Controls / Personal Protection, of the SDS.

#### Environmental Precautions:

Keep out of water supplies and sewers. Releases should be reported, if required, to appropriate regulatory agencies.

#### Methods and Materials for Containment and Cleaning Up:

Contain spill. Use methods to minimize generation of dust. Shovel back into original dry container or waste receptacle. Flush area with water. Contain runoff from fire control and dilution water.

#### Additional Disaster Prevention Measures:

---

### SECTION 7. HANDLING AND STORAGE

---

**General:** Not for use or storage in or around the home. Do not use until the manufacturer's precautions have been read/understood.

#### Precautions for Safe Handling:

Avoid prolonged or repeated breathing of dusts. Minimize generation of dust. Avoid contact with skin and eyes. Wash exposed skin thoroughly after contact and before eating, drinking, using tobacco products or restrooms. Observe good personal hygiene practices and recommended procedures. Wear personal protective equipment as described in Exposure Controls/Personal Protection (Section 8) of the SDS.

#### Safe Storage Conditions:

Keep container tightly closed and properly labeled. Store in a cool, well-ventilated area away from possible sources of ignition. Protect from physical damage. Keep containers closed when material is not in use. Keep away from food, drink and animal feed. Maintain good housekeeping. Keep separated from incompatible substances (see below or Section 10 of the Safety Data Sheet).

#### Incompatibilities/ Materials to Avoid:

Reaction with formaldehyde is mildly exothermic

**Additional Information:** Not for use or storage in or around home. Do not use until manufacturer's precautions have been read and understood.

#### Physical Hazards Not Otherwise Classified

- Combustible Dust: May form combustible dust concentrations in air

---

### SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

---

**PENACOLITE® RESIN B-21-WS**

SDS No.: M49043

SDS Revision Date: 25-Jan-2017

Supersedes Date: 2015-12-May

**Regulatory Exposure Limit(s):** This product does not contain any components that have regulatory occupational exposure limits (OEL's).

*OEL: Occupational Exposure Limit; OSHA: United States Occupational Safety and Health Administration; PEL: Permissible Exposure Limit; TWA: Time Weighted Average; STEL: Short Term Exposure Limit*

**NON-REGULATORY EXPOSURE LIMIT(S):** Listed below are the product components that have advisory (non-regulatory) occupational exposure limits (OEL's) established.

Component	ACGIH TWA	ACGIH STEL	ACGIH Ceiling	OSHA TWA (Vacated)	OSHA STEL (Vacated)	OSHA Ceiling (Vacated)
Resorcinol	10 ppm	20 ppm	-----	10 ppm 45 mg/m <sup>3</sup>	20 ppm 90 mg/m <sup>3</sup>	-----

- The Non-Regulatory United States Occupational Safety and Health Administration (OSHA) limits, if shown, are the Vacated 1989 PEL's (vacated by 58 FR 35338, June 30, 1993).

- The American Conference of Governmental Industrial Hygienists (ACGIH) is a voluntary organization of professional industrial hygiene personnel in government or educational institutions in the United States. The ACGIH develops and publishes recommended occupational exposure limits each year called Threshold Limit Values (TLVs) for hundreds of chemicals, physical agents, and biological exposure indices.

**Additional Advice:**

1. Good hygiene and safety practices should be used when handling and working with this material
2. Good hygiene practices include but are not limited to: wearing suitable gloves and/or eye protection; washing hands and affected skin immediately after handling, before breaks, and at the end of the workday; regularly cleaning work area and clothing; etc.

**ENGINEERING CONTROLS:** Provide sufficient general/local exhaust ventilation in pattern/volume to control inhalation exposures below applicable exposure limits and to keep area dust levels below explosive dust concentrations.

**PERSONAL PROTECTIVE EQUIPMENT:**

**Eye Protection:** Wear safety glasses with side-shields. If eye contact is likely, wear chemical resistant safety goggles and/or face-shield when appropriate. Provide an emergency eye wash fountain and quick drench shower in the immediate work area.

**Skin and Body Protection:** As a good hygiene practice, wear protective clothing to minimize skin contact such as standard industrial work clothes, coveralls, safety footwear. In dusty areas, wear necessary resistant protective apparel, including necessary head, hand, and foot protection. Contaminated clothing should be removed and laundered before reuse.

**Hand Protection:** As a good hygiene practice, wear appropriate chemical resistant gloves. Consult a glove supplier for assistance in selecting an appropriate chemical resistant glove.

**Protective Material Types:**

Permeation/degradation values of chemical mixtures cannot be predicted from pure components or chemical classes. Thus, these materials are normally best estimates based on available pure component data. A significant difference in chemical breakthrough time has been reported for generically similar gloves from different manufacturers, Butyl rubber, Natural rubber, Neoprene, Nitrile, Polyvinyl chloride (PVC), Tyvek®

**PENACOLITE® RESIN B-21-WS**

SDS No.: M49043

SDS Revision Date: 25-Jan-2017

Supersedes Date: 2015-12-May

**Respiratory Protection:** Not required under normal use conditions. A NIOSH/MSHA approved respirator with air purifying organic vapor cartridge/canister with particulate filter may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits, or when symptoms have been observed that are indicative of overexposure. The added protection of a full face-piece respirator is required when visible dusty conditions are encountered and eye irritation may occur. A respiratory protection program that meets 29 CFR 1910.134 must be followed whenever workplace conditions warrant use of a respirator.

**SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES**

<b>Physical State:</b>	Solid
<b>Appearance:</b>	Pastille
<b>Color:</b>	Dark brown
<b>Odor:</b>	Slight phenolic odor
<b>Chemical Family:</b>	Resorcinol-Formaldehyde substituted Carbo Monocyclic Resin
<b>Boiling Point/Range:</b>	Not applicable to solids
<b>Melting Point/Range:</b>	105 °C (221 °F)
<b>Vapor Pressure:</b>	<1 mmHg
<b>Vapor Density (air=1):</b>	Not applicable
<b>Relative Density/Specific Gravity (water=1):</b>	1.37 @ 23 °C
<b>Density:</b>	No data available
<b>Water Solubility:</b>	Negligible
<b>pH:</b>	4.3 @ 50% (50:50, methanol/water - warmed to dissolve)
<b>VOC Content (%):</b>	Not applicable
<b>Evaporation Rate (ether=1):</b>	No data available
<b>Partition Coefficient (n-octanol/water):</b>	No data available
<b>Flash point:</b>	>220 °C (>428 °F)
<b>Flammability (solid, gas):</b>	No data available
<b>Lower Flammability Level (air):</b>	Not applicable
<b>Upper Flammability Level (air):</b>	Not applicable
<b>Auto-ignition Temperature:</b>	Not applicable
<b>Viscosity:</b>	<1 poise (50% solution)

**SECTION 10. STABILITY AND REACTIVITY**

**Chemical Stability:** Stable at normal temperatures and pressures.

**Reactivity:** Not reactive under normal temperatures and pressures. Reaction with formaldehyde is mildly exothermic.

**Possibility of Hazardous Reactions:** Closed containers may explode or rupture when exposed to extreme heat (fire).

## PENACOLITE® RESIN B-21-WS

SDS No.: M49043

SDS Revision Date: 25-Jan-2017

Supersedes Date: 2015-12-May

**Conditions to Avoid:** (e.g., static discharge, shock, or vibration) -. None known.

**Incompatibilities/ Materials to Avoid:** Reaction with formaldehyde is mildly exothermic.

**Hazardous Decomposition Products:** Oxides of carbon (Carbon monoxide, Carbon dioxide).

**Hazardous Polymerization:** Will not occur.

## SECTION 11. TOXICOLOGICAL INFORMATION

**IRRITATION DATA:** As listed below

**Standard Draize (Eye):**

Score - 8 @ 24, 2 @ 48, and 0.4 @ 72 hrs. (Rabbit)

**Standard Draize (Skin):**

Score - 4 (Rabbit - 24 hrs.)

**TOXICITY DATA:**

**PRODUCT TOXICITY DATA:** PENACOLITE® RESIN B-21-WS

<b>LD50 Oral:</b> >5000 mg/kg (Rat)	<b>LD50 Dermal:</b> >2000 mg/kg (Rabbit)	<b>LC50 Inhalation:</b> No data available
----------------------------------------	---------------------------------------------	----------------------------------------------

**Note:** The component toxicity data is populated by the LOLI database and may differ from the product toxicity data given.

Component	LD50 Oral:	LD50 Dermal:	LC50 Inhalation:
Resorcinol 108-46-3	202 mg/kg (Rat)	3360 mg/kg (Rabbit)	21.3 mg/L (1 hr-Rat)

\*\*\*\*\*

**POTENTIAL HEALTH EFFECTS:**

- Eye contact:** Direct contact with solid or dust may cause irritation and burns to the eye lids, conjunctivitis, corneal edema, and corneal burn.
- Skin contact:** Direct contact or contact with solid or dust may cause mild irritation and skin rash.
- Inhalation:** Inhalation of this material may cause irritation of upper and lower airways.
- Ingestion:** Ingestion of this material may cause gastrointestinal irritation. May cause local tissue irritation to esophagus and stomach.
- Chronic Effects:** Skin: Repeated and prolonged skin contact may cause dermatitis and

# PENACOLITE® RESIN B-21-WS

SDS No.: M49043

SDS Revision Date: 25-Jan-2017

Supersedes Date: 2015-12-May

sensitization.

## SIGNS AND SYMPTOMS OF EXPOSURE:

**Inhalation (Breathing):** Respiratory System Effects: Inhalation of this material may cause irritation, coughing.

**Skin:** Skin Irritation. Exposure of dust to skin may cause redness, mild irritation. Free resorcinol may penetrate the skin and cause systemic toxicity. This material contains less than 10% free resorcinol.

**Eye:** Eye Irritation. Eye exposure may cause irritation and burns to the eyelids, conjunctivitis, corneal edema, and iritis.

**Ingestion (Swallowing):** Gastrointestinal System Effects: Exposure by ingestion may cause irritation, nausea, and vomiting. May cause local tissue damage to esophagus and stomach such as burning, inflammation. Free resorcinol is well absorbed by the gastrointestinal (GI) tract, and this route of exposure can lead to systemic effects such as unconsciousness, respiratory failure, seizures, leukocytosis and severe metabolic acidosis, and methemoglobinemia. Alterations in liver and kidney functions have been reported in severe poisonings. This material contains less than 10% free resorcinol.

## TOXICITY:

The resorcinol-formaldehyde resin is irritating in contact with skin and mucus membranes. Resorcinol, in low concentrations, is commonly used in the pharmaceutical and cosmetic industries. Resorcinol has been reported to be less toxic than phenol or catechol by the ingestion or skin routes of exposure. Chemical analysis indicates that there is less than 50 ppm free formaldehyde present in this material.

## CHRONIC TOXICITY:

Animal and human data have indicated that resorcinol may cause damage to the respiratory system. Animal and human data have indicated that resorcinol causes damage to the blood and central nervous system. This product contains less than 10% resorcinol.

**Interaction with Other Chemicals Which Enhance Toxicity:** None known.

\*\*\*\*\*

## GHS HEALTH HAZARDS:

**GHS: CONTACT HAZARD - EYE:** Category 2A - Causes serious eye irritation

**GHS: CONTACT HAZARD - SKIN:** Category 2 - Causes skin irritation.

**Skin Absorbent / Dermal Route?** No.

**GHS: SENSITIZATION HAZARD:** Skin Sensitizer Category 1 - May cause an allergic skin reaction.

**Carcinogenicity comment:** Chemical analysis indicates that <50ppm free formaldehyde is present in product. No known ingredients which occur at greater than 0.1% are listed as a carcinogen in the IARC Monographs on the Evaluation of the Carcinogenic Risk of Chemicals to Humans, the NTP Annual Report on Carcinogens, or OSHA 29 CFR 1910 Subpart Z Toxic and Hazardous Substances (specifically regulated substances).

## SECTION 12. ECOLOGICAL INFORMATION

**SECTION 16. OTHER INFORMATION**

Prepared by: OxyChem Corporate HESS - Product Stewardship

Rev. Date: 25-Jan-2017

**Reason for Revision:**

- Emergency Overview was revised: SEE SECTION 2
- Revised Major Health Hazards: SEE SECTION 2
- Added or revised Physical Hazards: SEE SECTION 2
- Added or revised Precautionary Statements: SEE SECTION 2
- Revised GHS Information: SEE SECTION 2
- Updated First Aid Measures: SEE SECTION 4
- Toxicological Information has been revised: SEE SECTION 11
- Ecological Information has been modified: SEE SECTION 12
- Removed NFPA/HMIS ratings from format: SEE SECTION 16
- A component has been added to the formulation. SEE SECTION 2.

**IMPORTANT:**

The information presented herein, while not guaranteed, was prepared by technical personnel and is true and accurate to the best of our knowledge. NO WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE, OR WARRANTY OR GUARANTY OF ANY OTHER KIND, EXPRESS OR IMPLIED, IS MADE REGARDING PERFORMANCE, SAFETY, SUITABILITY, STABILITY OR OTHERWISE. This information is not intended to be all-inclusive as to the manner and conditions of use, handling, storage, disposal and other factors that may involve other or additional legal, environmental, safety or performance considerations, and INDSPEC Chemical Corporation assumes no liability whatsoever for the use of or reliance upon this information. While our technical personnel will be happy to respond to questions, safe handling and use of the product remains the responsibility of the customer. No suggestions for use are intended as, and nothing herein shall be construed as, a recommendation to infringe any existing patents or to violate any Federal, State, local or foreign laws.

OSHA Standard 29 CFR 1910.1200 requires that information be provided to employees regarding the hazards of chemicals by means of a hazard communication program including labeling, safety data sheets, training and access to written records. We request that you, and it is your legal duty to, make all information in this Safety Data Sheet available to your employees
