Product use

: Pre-wash laundry additive spray

This SDS is designed for workplace employees, emergency personnel and for other conditions and situations where there is greater potential for large-scale or prolonged exposure, in accordance with the requirements of USDOL Occupational Safety and Health Administration.

This SDS is not applicable for consumer use of our products. For consumer use, all precautionary and first aid language is provided on the product label in accordance with the applicable government regulations, and shown in Section 15 of this SDS.

| 2. Hazards identification | | |
|--|---|--|
| Classification of the substance or mixture | : SKIN CORROSION/IRRITATION - Category 1 SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 1 | |
| GHS label elements | | |
| Hazard pictograms | | |
| | | |
| Signal word | : Danger | |
| Hazard statements | : Causes severe skin burns and eye damage. | |
| Precautionary statements | <u>s</u> | |
| General | : Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand. | |
| Prevention | : Wear protective gloves. Wear eye or face protection. Wear protective clothing. Wash hands thoroughly after handling. | |
| Code # : FF0129047_3 | SDS # : D0132083 v.6 Date of issue : 10/12/2014. 1/12 | |

2. Hazards identification

| Response: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or physician. IF SWALLOWED: Immediately call a POISON CENTER or physician. Rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. Wash contaminated clothing before reuse. Immediately call a POISON CENTER or physician. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or physician.Storage Disposal: Store locked up.Dispose of contents and container in accordance with all local, regional, national and international regulations.Supplemental label elements: None known.Hazards not otherwise classified: None known. | | |
|---|----------|--|
| Disposal : Dispose of contents and container in accordance with all local, regional, national and international regulations. Supplemental label elements : None known. 3. Composition/information on ingredients • Mixture

| Substance/mixture : Mixture | | |
|---|-------------------------------|---------------------------------------|
| Ingredient name | % | CAS number |
| Alcohols, C12-16, ethoxylated hydrogen peroxide Alcohols, C12-16, ethoxylated | 2.5 - 5 2.5 - 5 1 - 2.5 | 68551-12-2 7722-84-1 68551-12-2 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

4. First aid measures

Substance/mixture

| Description of necessar | <u>y first aid measures</u> |
|-------------------------|---|
| Eye contact | : Get medical attention immediately. Call a poison center or physician. Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Chemical burns must be treated promptly by a physician. |
| Inhalation | : Get medical attention immediately. Call a poison center or physician. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |
| Skin contact | : Get medical attention immediately. Call a poison center or physician. Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Chemical burns must be treated promptly by a physician. Wash clothing before reuse. Clean shoes thoroughly before reuse. |

| D0132083 | V. | 6 |
|----------|----|---|
|----------|----|---|

| 4. First aid measures | | |
|-----------------------------|------------|--|
| Ingestion | : | Get medical attention immediately. Call a poison center or physician. Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Chemical burns must be treated promptly by a physician. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |
| Most important symptoms/ | effec | ts, acute and delayed |
| Potential acute health effe | <u>cts</u> | |
| Eye contact | 1 | Causes serious eye damage. |
| Inhalation | : | May give off gas, vapor or dust that is very irritating or corrosive to the respiratory system. |
| Skin contact | 1 | Causes severe burns. |
| Ingestion | 1 | May cause burns to mouth, throat and stomach. |
| Over-exposure signs/sym | ptom | <u>IS</u> |
| Eye contact | : | Adverse symptoms may include the following: pain watering redness |
| Inhalation | : | No specific data. |
| Skin contact | : | Adverse symptoms may include the following: pain or irritation redness blistering may occur |
| Ingestion | : | Adverse symptoms may include the following: stomach pains |
| Indication of immediate me | dica | attention and special treatment needed, if necessary |
| Notes to physician | : | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |
| Specific treatments | : | No specific treatment. |
| Protection of first-aiders | : | No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

See toxicological information (Section 11)

| 5. Fire-fighting measures | |
|--------------------------------|---|
| Extinguishing media | |
| Suitable extinguishing media | : Use an extinguishing agent suitable for the surrounding fire. |
| Unsuitable extinguishing media | : None known. |

5. Fire-fighting measures

| Specific hazards arising from the chemical | : In a fire or if heated, a pressure increase will occur and the container may burst. |
|--|---|
| Hazardous thermal decomposition products | : Decomposition products may include the following materials: carbon dioxide carbon monoxide sulfur oxides metal oxide/oxides |
| Special protective actions for fire-fighters | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

6. Accidental release measures

| Personal precautions, protect | tive equipment and emergency procedures |
|--------------------------------|---|
| For non-emergency personnel | : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Do not breathe vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
| For emergency responders | : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| Environmental precautions | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| Methods and materials for co | ntainment and cleaning up |
| Small spill | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| Large spill | : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

7. Handling and storage

| Precautions for safe handli | ng |
|-----------------------------|--|
| Protective measures | : Put on appropriate personal protective equipment (see Section 8). Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. |

7. Handling and storage

| Conditions for safe storage, | 1 | Store in accordance with local regulations. Store in original container protected from |
|------------------------------|---|---|
| including any | | direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials |
| incompatibilities | | (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. |

8. Exposure controls/personal protection

<u>Control</u>

| <u>Control</u> <u>Occupational exposure lin</u> | <u>mits</u> | | |
|--|-------------|--|--|
| Ingredient name | | Exposur | e limits |
| hydrogen peroxide | | | LV (United States, 6/2013). |
| | | | ppm 8 hours. |
| | | | .4 mg/m ³ 8 hours. |
| | | | EL 1989 (United States, 3/1989). |
| | | | ppm 8 hours. |

| | | | EL (United States, 2/2013). |
| | | | ppm 8 hours. |
| | | TWA: 1. | .4 mg/m³ 8 hours. |
| Appropriate engineering controls | : | If user operations generate dust, fumes, gas, vapol local exhaust ventilation or other engineering contr airborne contaminants below any recommended o | ols to keep worker exposure to |
| Environmental exposure | | Emissions from ventilation or work process equipn | nent should be checked to ensure |
| controls | | they comply with the requirements of environmenta | |
| | | cases, fume scrubbers, filters or engineering modi | |
| | | will be necessary to reduce emissions to acceptab | le levels. |
| Individual protection meas | ures | | |
| Hygiene measures | | Wash hands, forearms and face thoroughly after heating, smoking and using the lavatory and at the | |
| | | Appropriate techniques should be used to remove | |
| | | Wash contaminated clothing before reusing. Ensu | |
| | | showers are close to the workstation location. | |
| Eye/face protection | 1 | Safety eyewear complying with an approved stand | ard should be used when a risk |
| | | assessment indicates this is necessary to avoid ex | posure to liquid splashes, mists, |
| | | gases or dusts. If contact is possible, the following | |
| | | the assessment indicates a higher degree of prote | |
| | | or face shield. If inhalation hazards exist, a full-fac | ce respirator may be required instead. |
| Skin protection | | | |
| Hand protection | 1 | Chemical-resistant, impervious gloves complying v | with an approved standard should be |
| | | worn at all times when handling chemical products | if a risk assessment indicates this is |
| | | necessary. Considering the parameters specified | by the glove manufacturer, check |
| | | during use that the gloves are still retaining their pl | |
| | | noted that the time to breakthrough for any glove r | |
| | | glove manufacturers. In the case of mixtures, con | |
| | | protection time of the gloves cannot be accurately | |
| Body protection | | Personal protective equipment for the body should | |
| | | performed and the risks involved and should be ap | pproved by a specialist before |
| | | handling this product. | |

| D0132083 v.6 | | | | |
|--|---|--|--|--|
| 8. Exposure controls/personal protection | | | | |
| Other skin protection | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. | | | |
| Respiratory protection | : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. | | | |

9. Physical and chemical properties

Appearance

| Physical state | : | Liquid. |
|--|---|--|
| Color | 1 | Clear. |
| Odor | : | Fragrant. |
| Odor threshold | : | Not available. |
| рН | : | 3 to 4 |
| Melting point | : | Not available. |
| Boiling point | 1 | Not available. |
| Flash point | 1 | Closed cup: >93.3°C (>199.9°F) |
| Evaporation rate | 1 | Not available. |
| Flammability (solid, gas) | 1 | Not available. |
| Lower and upper explosive (flammable) limits | : | Not available. |
| Vapor pressure | 1 | Not available. |
| Vapor density | : | Not available. |
| Relative density | 1 | 1.005 to 1.015 |
| Solubility | : | Easily soluble in the following materials: cold water and hot water. |
| Partition coefficient: n- octanol/water | : | Not available. |
| Auto-ignition temperature | : | Not available. |
| Decomposition temperature | 1 | Not available. |
| Viscosity | 1 | Dynamic (room temperature): 100 mPa·s (100 cP) |
| | | |

10. Stability and reactivity

| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. |
|------------------------------------|--|
| Chemical stability | : The product is stable. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. |
| Conditions to avoid | : No specific data. |
| Incompatible materials | : No specific data. |
| Hazardous decomposition products | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

11. Toxicological information

Information on toxicological effects

Acute toxicity

| Product/ingredient name | Result | Species | Dose | Exposure |
|-------------------------------|-----------|---------|-----------------------------|----------|
| hydrogen peroxide | LD50 Oral | | 805 mg/kg (70% H2O2 w/w) | - |
| Alcohols, C12-16, ethoxylated | LD50 Oral | | 500 to 2000 mg/ kg | - |

Irritation/Corrosion

| Product/ingredient name | Result | Species | Score | Exposure | Observation |
|--|--|------------------|-------|---|-------------|

: Not available.

Other adverse effects : No known significant effects or critical hazards.

13. Disposal considerations

Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

14. Transport information

Not a DOT controlled material (United States). Not a TDG-controlled material. This preparation is not classified as dangerous according to international transport regulations (ADR/RID, IMDG or ICAO/IATA).

15. Regulatory information

| U.S. Federal regulations | : | TSCA 8(a) CDR Exempt/Partial exemption: Not determined United States inventory (TSCA 8b): Not determined. Clean Water Act (CWA) 311: sodium hydroxide |
