

# Safety Data Sheet

NON-Hazardous Substance, NON-Dangerous Goods

## 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Product Identifier: **Selleys The One Adhesive**

**Synonyms:**

Selleys The One Adhesive, 290mL

**Product Code**

101040

**Bar Code**

9300697126030

**Relevant identified uses of the substance or mixture and uses advised against:** Multi-surface adhesive. No information for uses advised against.

**Details of the supplier of the safety data sheet:**

**Supplier/Distributor:** Selleys Australia  
**Street Address:** 1 Gow Street,  
Padstow NSW 2211  
Australia

Craig and Rose Ltd  
Unit 8, Halbeath Industrial Estate,  
Crossgates Road, Halbeath,  
Dunfermline,  
Fife, KY11 7EG  
Scotland

**Telephone:** 0800 085 6278

**Web Address:** [www.selleys.com](http://www.selleys.com)

**E:Mail** [selleys.sds@selleys.co.uk](mailto:selleys.sds@selleys.co.uk)

**24hr UK Emergency telephone number:** **0800 085 6522**

## 2. HAZARDS IDENTIFICATION

**Classification of the substance or mixture:** Based on available information, this material is not classified as hazardous according to the criteria of Regulation (EC) No. 1272/2008 (CLP).

**Label elements/pictogram:**

Not applicable

**Signal word:**

No signal word

**Hazard statements:**

Not applicable

**Precautionary statements:**

Not allocated

**Supplemental hazard information**

Not applicable

**Other hazards:** Not applicable

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

Name	CAS No.	EC No.	REACH Reg. No.	Proportion (% w/w)	Classification
2,4-Di-tert-butyl-6-(5-chlorobenzotriazol-2-yl)phenol	3864-99-1	223-383-8	-	< 0.3	vPvB
Non-Hazardous	-	-	-	>99.7	-

Classification in accordance to Regulation (EC) No. 1272/2008 (CLP).

## 4. FIRST AID MEASURES

**Description of first aid measures:** If poisoning occurs, contact a doctor or the National Poisons Information Service (Phone 111) or Ambulance (Phone 999).

**Inhalation:** Remove victim from exposure - avoid becoming a casualty. Remove contaminated clothing and loosen remaining clothing. Allow patient to assume most comfortable position and keep warm. Keep at rest until fully recovered. Seek medical advice if effects persist.

**Skin contact:** If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. If swelling, redness, blistering or irritation occurs seek medical assistance.

**Eye contact:** If in eyes wash out immediately with water. In all cases of eye contamination it is a sensible precaution to seek medical advice.

**Ingestion:** Rinse mouth with water. If swallowed, do NOT induce vomiting. Give a glass of water to drink. Never give anything by the mouth to an unconscious patient. If vomiting occurs give further water. Seek medical advice.

**Self-protection for the first aider:** Wear overalls, safety glasses and impervious gloves. Available information suggests that gloves made from nitrile rubber should be suitable for intermittent contact. However, due to variations in glove construction and local conditions, the user should make a final assessment. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storing or re-using.

**Most important symptoms and effects, both acute and delayed:** Refer to Section 11 for Toxicological Information.

**Indication of any immediate medical attention and special treatment needed:** Treat symptomatically.

## 5. FIRE-FIGHTING MEASURES

**Hazchem code:** Not applicable.

**Extinguishing media:** Not combustible, however, if material is involved in a fire use water fog (or if unavailable fine water spray), foam, dry agent (carbon dioxide, dry chemical powder). Do not use water jets.

**Specific hazards arising from the substance or mixture:** Non-combustible material.

**Advice for firefighters:** Not combustible, however following evaporation of aqueous component residual material can burn if ignited. On burning may emit toxic fumes. Fire fighters to wear self-contained breathing apparatus and suitable protective clothing if risk of exposure to vapour or products of combustion.

## 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures:** Slippery when spilt. Avoid accidents, clean up immediately. Wear protective equipment to prevent skin and eye contamination and the inhalation of vapours.

**Environmental precautions:** Do not let product enter drains. If contamination of sewers or waterways has occurred advise local emergency services.

### Methods and material for containment and cleaning up

**Small spills:** Wipe up with absorbent (clean rag or paper towels). Allow absorbent to dry before disposing with normal household garbage.

**Large spills:** Work up wind or increase ventilation. Contain - prevent run off into drains and waterways. Use absorbent (soil, sand or other inert material). Collect and seal in properly labelled containers or drums for disposal.

**Reference to other sections:** Refer to Section 13 for Disposal Considerations.

## 7. HANDLING AND STORAGE

**Precautions for safe handling:** Avoid skin and eye contact and inhalation of vapour.

**Conditions for safety storage, including any incompatibilities:** Store in a cool, dry, well-ventilated place and out of direct sunlight. Store away from incompatible materials described in Section 10. Keep containers closed when not in use - check regularly for leaks.

**Specific end use:** Keep away from food, drink and animal feeding stuffs. When using do not eat, drink or smoke. Wash hands prior to eating, drinking or smoking. Ensure that eyewash stations and safety showers are close to the workstation location.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Control Parameters

**Occupational exposure limits:** No Workplace Exposure Standard values have been assigned for this specific material by the Health and Safety Executive (HSE).

**Biological monitoring:** No biological monitoring required.

### Exposure Controls

**Engineering Controls:** Use only in well ventilated areas.

**Personal Protection Equipment:** GREEN: OVERALLS, SAFETY SHOES, SAFETY GLASSES, GLOVES.

Personal protective equipment should be used only when other control measure (eg. elimination, substitution, isolation and engineering controls) have been found to be impractical or in conjunction with one or more control measures.

**Manufacturing, Packing and Transport:** Wear overalls, safety glasses and impervious gloves. If risk of inhalation exists, wear organic vapour/particulate respirator meeting the requirements of HSE Respiratory Protective Equipment at Work HSGE53.

**Recommendations for consumer use:** Wash hands after use.

**Environmental Exposure Controls:** Keep containers closed when not in use.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### Information on Basic Physical and Chemical Properties

**Appearance and odour:** Grey paste with a mild, characteristic odour.

<b>Solubility:</b>	Insoluble in water. Uncured material is soluble in organic solvents.
<b>Specific Gravity (25 °C):</b>	1.61
<b>Relative Vapour Density (air=1):</b>	>1
<b>Vapour Pressure (20 °C):</b>	N Av
<b>Oxidising Properties:</b>	N App
<b>Flash Point (°C):</b>	N App
<b>Flammability Limits (%):</b>	N App
<b>Autoignition Temperature (°C):</b>	N App
<b>Explosive Properties:</b>	N App
<b>Boiling Point/Range (°C):</b>	>100
<b>Decomposition Point (°C):</b>	N Av
<b>Melting Point/Freezing Point (°C):</b>	N Av
<b>pH:</b>	N Av
<b>Viscosity:</b>	>21 mm <sup>2</sup> /sec
<b>Partition Coefficient:</b>	N Av
<b>Evaporation Rate (n-Butyl acetate=1):</b>	N Av
<b>Total VOC (g/Litre):</b>	N Av

(Typical values only - consult specification sheet)  
N Av = Not available                      N App = Not applicable

## 10. STABILITY AND REACTIVITY

**Reactivity:** No reactivity hazards are known for the material.

**Chemical stability:** This material is thermally stable when stored and used as directed.

**Possibility of hazardous reactions:** No known hazardous reactions.

**Conditions to avoid:** Elevated temperatures and sources of ignition.

**Incompatible materials:** Oxidising agents.

**Hazardous decomposition products:** Oxides of carbon and nitrogen, smoke and other toxic fumes.

## 11. TOXICOLOGICAL INFORMATION

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

### Information on Toxicological Effects

**Inhalation:** Where this material is used in a poorly ventilated area, at elevated temperatures or in confined spaces, vapour may cause irritation to mucous membranes and respiratory tract, headache and nausea.

**Skin contact:** Contact with skin may result in irritation. May cause skin sensitisation in sensitive individuals.

**Ingestion:** No adverse effects expected however large amounts may cause nausea and vomiting.

**Eye contact:** May be an eye irritant.

# Safety Data Sheet

## Acute toxicity

**Inhalation:** Based on available data the classification criteria have not been met. This material has been classified as non-hazardous. Acute toxicity estimate (based on ingredients): >20 mg/L

**Skin contact:** Based on available data the classification criteria have not been met. This material has been classified as non-hazardous. Acute toxicity estimate (based on ingredients): >2,000 mg/Kg

**Ingestion:** Based on available data the classification criteria have not been met. This material has been classified as non-hazardous. Acute toxicity estimate (based on ingredients): >2,000 mg/Kg

**Corrosion/Irritancy:** Eye: Based on available data this material has been classified as not corrosive or irritating to eyes.

Skin: Based on available data this material has been classified as not corrosive or irritating to skin.

**Sensitisation:** Inhalation: Based on available data this material has been classified as not a respiratory sensitiser.

Skin: Based on available data this material has been classified as not a skin sensitiser.

**Aspiration hazard:** Based on conclusive data this material has been classified as non-hazardous.

**Specific target organ toxicity (single exposure):** Based on available data this material has been classified as non-hazardous.

## Chronic Toxicity

**Mutagenicity:** Based on available data this material has been classified as non-hazardous.

**Carcinogenicity:** Based on available data this material has been classified as non-hazardous.

**Reproductive toxicity (including via lactation):** Based on available data this material has been classified as non-hazardous.

**Specific target organ toxicity (repeat exposure):** Based on available data this material has been classified as non-hazardous.

## 12. ECOLOGICAL INFORMATION

### Toxicity

**Acute:** No information is available for the product.

*For the constituent:*

2,4-DI-TERT-BUTYL-6-(5-CHLOROBENZOTRIAZOL-2-YL)PHENOL<sup>1</sup>

96hr LC50 (rainbow trout): >100 mg/L

48hr EC50 (Daphnia magna): 16 mg/L

**Chronic:** No information is available for the product.

**Persistence and degradability:** No information is available for the product. However, the constituent 2,4-di-tert-butyl-6-(5-chlorobenzotriazol-2-yl)phenol is not readily biodegradable. It is completely adsorbed to sediment with half lives in sediment calculated to be between 151 and 192 days. It does not hydrolyse rapidly in water.<sup>2</sup>

**Bio-accumulative potential:** The constituent 2,4-di-tert-butyl-6-(5-chlorobenzotriazol-2-yl)phenol has a potential to bioaccumulate, with reported lipid normalised bioconcentration factors in fish, ranging between 1203 to 8817.<sup>2</sup>

**Mobility in soil:** Low mobility in soil. Product cures on contact with air.

**Results of PBT and vPvB assessment:** A component of this material has been listed as a vPvB. A vPvB assessment in accordance with Section 4 of Annex I and Annex XIII of the REACH Regulation will be conducted by registrants to ECHA importing 10 or more tonnes per year of the substance.

**Other adverse effects:** No information available.

## 13. DISPOSAL CONSIDERATIONS

**Waste treatment methods:** Persons conducting disposal, recycling or reclamation activities should ensure that appropriate personal protection equipment is used, see "Section 8. Exposure Controls and Personal Protection" of this SDS.

If possible material and its container should be recycled. If material or container cannot be recycled, dispose of in accordance with the countries' Environmental Protection Authority.

## 14. TRANSPORT INFORMATION

### Road and Rail Transport

Not classified as Dangerous Goods by the criteria of "The European Agreement Concerning the International Carriage of Dangerous Goods by Road (ADR)", "The Regulations Concerning the International Carriage of Dangerous Goods by Rail (RID)" and "The European Agreement Concerning the International Carriage of Dangerous Goods by Inland Waterways (ADN)".

### Marine Transport

Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

### Air Transport

Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

**Special Precautions for User:** Not applicable.

**Transport in Bulk according to Annex II MARPOL 73/78 and the IBC Code:** Not applicable

## 15. REGULATORY INFORMATION

**Safety, health and environmental regulations/legislation specific for the substance or mixture:** This Safety Data Sheet has been written in accordance with Regulation (EC) No. 1272/2008 (CLP) and ECHA corresponding Guidance on the Classification, Labelling and Packaging of Substances and Mixtures (2015, Version 4,1)

All the constituents of this material are listed on the European Chemicals Agency C&L Inventory.

This material is not subject to the following international agreements

- Montreal Protocol (Ozone depleting substances)
- The Stockholm Convention (Persistent Organic Pollutants)
- The Rotterdam Convention (Prior Informed Consent)
- Basel Convention (Hazardous Waste)
- International Convention for the Prevention of Pollution from Ships (MARPOL)

**Chemical safety assessment:** No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

## 16. OTHER INFORMATION

1. Supplier Safety Data Sheet. Proprietary Information 2014.
2. European Chemicals Agency 2015. vPvP Article 57e 2,2-Di-tert-butyl-6-(5-chlorobenzotriazol-2-yl)phenol (UV-327) (<https://echa.europa.eu/candidate-list-table/-/dislist/details/0b0236e1808db547>).

**Indications of changes:** First Issue

This Safety Data Sheet has been prepared by Chemical Data Services Pty Ltd ([chemdata.com.au](http://chemdata.com.au)) on behalf of its client.

Safety Data Sheets are updated frequently. Please ensure that you have a current copy.

This SDS summarises at the date of issue our best knowledge of the health and safety hazard information of the product, and in particular how to safely handle and use the product in the workplace. Since Craig and Rose Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this SDS in the context of how the user intends to handle and use the product in the workplace.

If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this company.

Our responsibility for product as sold is subject to our standard terms and conditions, a copy of which is sent to our customers and is also available upon request.

End of SDS.
