Most important symptoms and effects

Acute

- Direct contact with product concentrate may cause eye irritation.

Delayed

- Prolonged/repeated exposure may cause mild skin irritation in susceptible individuals.

Indication of any immediate medical attention and special treatment needed

Note to Physician

- All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

Products

Special Protective Equipment

and Precautions for Firefighters

- Structural firefighters' protective clothing will only provide limited protection. Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection. Wear positive pressure self-contained breathing apparatus (SCBA). Water spray may be used to cool containers exposed to fire.

Section 6: Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

- Personal Precautions**
 - Wear appropriate protective equipment including respiratory protection as conditions warrant. Do not touch or walk through spilled material.
- Environmental precautions**
 - Avoid run off to waterways and sewers.
- Methods and material for containment and cleaning up**
 - Recover free liquid for recycle or disposal. Add absorbant to spill area.
- Containment/Clean-up Measures**
 - LARGE SPILLS: Dike far ahead of liquid spill for later disposal.

Section 7: Handling and Storage

Precautions for safe handling

- Handling**
 - Do not mix or store with strong oxidants. Wash hands thoroughly after handling. Empty container contains product residue which may exhibit hazards of product.

Conditions for safe storage, including any incompatibilities

- Storage**
 - Store in a dry, well ventilated place. Keep container tightly closed when not in use. Keep away from open flame and incompatible materials such as strong oxidizers.

Incompatible Materials

- Contains alkanolamine. Do not mix with or add nitrites as this could form nitrosamines, some of which are animal carcinogens.

General Industrial Hygiene Considerations

- Handle in accordance with good industrial hygiene and safety practice. Wash thoroughly with soap and water after handling and before eating or drinking. Safety shower and eye wash should be available close to work station.

Environmental Exposure Controls

- Follow best practice for site management and disposal of waste. Avoid release to the environment.

Section 8: Exposure Controls/Personal Protection

Exposure Contols

PEL/TLV

Ingredient	OSHA (PEL)	ACGIH (TLV)	Other
tris(2-hydroxyethyl)amine		5mg/m3	

- Engineering Measures/Controls**
 - Use adequate mechanical (general) ventilation or local exhaust as needed to control concentration of airborne contaminants below applical exposure limit values.

Personal Protective Equipment

Pictograms

- Respiratory**
 - Not necessary under conditions of normal use. In case of insufficient ventilation, wear suitable respiratoy equipment if exposure limits are exceeded.
- Eye/Face**
 - Wear safety goggles.
- Hands**
 - Wear protective gloves- neoprene, butyl or nitrile rubber with cuffs.
- Skin/Body**
 - Where extensive dermal exposure may be expected, either a chemical

suit or chemical apron will be needed.
