ENVIRONMENTAL HAZARDS: None known.

SECTION 4. FIRST AID MEASURES

IF IN EYES:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

IF INHALED:

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice.

IF SWALLOWED:

SECTION 5. FIRE FIGHTING MEASURES

FLASH POINT: NA

LeL: NA

UeL: NA

FIRE OR EXPLOSION HAZARDS: Can burn in fire, releasing irritating and toxic gases due to thermal decomposition or combustion.

EXTINGUISHING MEDIA: Proper to primary cause of fire. Use foam, dry chemical, carbon dioxide, or water spray when fighting fires involving this material.

FIRE FIGHTING INSTRUCTIONS: Evacuate area and fight fire upwind from a safe distance to avoid hazardous vapors and decomposition products. Foam or dry chemical fire extinguishing system is preferred to prevent excessive water run off.

SPECIAL FIRE FIGHTING PROCEDURES: If Copper Oxychloride is involved in a fire, avoid breathing smoke. Use a positive-pressure, self-contained breathing air supply. Avoid getting water from fire fighting into domestic or irrigation water supplies.

HAZARDOUS COMBUSTION PRODUCTS: Hydrogen chloride, oxides of hydrogen and Copper.

SECTION 6. ACCIDENTAL RELEASE MEASURES

STEPS TO BE TAKEN IF THE MATERIAL IS RELEASED OR SPILLED:

Clean up spills immediately, observing precautions in Protective Equipment section. Isolate hazard area. Keep unnecessary personnel from entering.

SMALL SPILL: Vacuum or sweep up material and place in containers for reuse and disposal. Mark and store containers as hazardous waste.

LARGE SPILL: Vacuum or sweep up material and place in containers for reuse and disposal. After removal, flush contaminated area thoroughly with water. Pick up rinse material with an absorbent such as clay or sand and place in a chemical waste container for disposal.

WASTE DISPOSAL METHOD: Dispose on approved hazardous waste disposal site. Follow applicable State and Federal regulations.

SECTION 7. HANDLING AND STORAGE

KEEP OUT OF REACH OF CHILDREN!

SPECIAL SENSITIVITY (HEAT, LIGHT, MOISTURE, ETC): None.

HANDLING: Use only in a well ventilated area. Minimize dust generation and accumulation.

STORAGE: Store in a well ventilated, dry place away from acids and ammonia. Store in a cool, clean area, away from heat and other sources of ignition. Keep away from food, feed and drinking water.

SECTION 8. EXPOSURE CONTROLS, PERSONAL PROTECTION

Some materials that are chemical-resistant to this product are any waterproof material. If you want more options, follow the instructions for category A on an EPA chemical-resistance category selection chart.

Applicators and other handlers must wear:

1. Coveralls over short-sleeved shirt and short pants
2. Chemical-resistant gloves made of any waterproof material such as polyethylene or polyvinyl chloride
3. Chemical-resistant footwear plus socks
4. Protective eyewear
5. Chemical-resistant headgear for overhead exposure
6. Chemical-resistant apron when cleaning equipment, mixing, or loading

Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them. Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240(d)(4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.
