Safety Data Sheet

Steps to Take in Case Material Is Released or Spilled:

Exposure to the spilled material may be irritating or harmful. Follow personal protective equipment recommendations found in Section 8 of this SDS. Additional precautions may be necessary based on special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred. Also consider the expertise of employees in the area responding to the spill. Ventilate the contaminated area. Remove soiled clothing and launder before reuse. Avoid contact with material. Avoid creating and inhaling spray or mist. Avoid contact with skin and eyes. Vacuum or sweep up material and place in a disposal container Absorb spill with inert material (e.g., dry sand or earth), then place in a chemical waste container Do not flush spill to drain.
