Products contain combinations of the following types of ingredients:

Water, Emollients, Oil Carriers (for emulsions), Surfactants, Thickeners, Additives (various), Colours (in some products only), Fragrances (not in all products), Preservatives.

HEALTH HAZARD INFORMATION

Health Effects

Acute	
Swallowed	Not a likely route of exposure for most products.
Eye	If rubbed into the eye, may cause slight eye irritation.
Skin	All products have the possibility of causing skin irritation or sensitisation in susceptible individuals.
Inhaled	Not a likely route of exposure. No known adverse effects.
Chronic	
	Skin: Possible skin irritation or sensitisation in susceptible individuals.

First Aid

Swallowed	Obtain medical attention, do NOT induce vomiting. Give one or two glasses of water.
Eye	Rinse eyes thoroughly with water (15 minutes may be required). Obtain medical attention if effects persist.
Skin	If irritation occurs or sensitisation develops, wash thoroughly with soap and water. Obtain medical attention.
Inhaled	Not normally applicable, except if overheated. Remove to fresh air if decomposition fumes are inhaled.

PRECAUTIONS FOR USE

Controls	No engineering controls required.
Personal Protection	Persons applying the products as part of their job should avoid unnecessary and prolonged skin contact. For those persons gloves should be worn to prevent unnecessary skin contact (e.g. plastic or latex gloves).
Flammability	These products generally contain combustible ingredients and water. They will eventually burn under fire conditions. The packaging will burn under fire conditions and may produce toxic fumes and smokes.
